Our story

Yindyamarra Winhanganha

This is a Wiradjuri phrase meaning ‘the wisdom of respectfully knowing how to live well in a world worth living in’.

It's at the heart of everything we stand for here at Charles Sturt University. It's the reason we strive to create a world worth living in.

To us, a world worth living in is a place that protects and values society's core needs. The security of our land and food. The health and education of our people. The development of technology to help us prosper. And clear and honest communication with ourselves – and each other.

Charles Sturt University was founded on a quest to meet these fundamental needs. Since day one, we've empowered people to make the world a better place. Because we believe in making a difference. When we connect people to their purpose, we make communities better. And when we make communities better, we create a world worth living in.

Why Charles Sturt University is unique

At Charles Sturt University, everything we do is guided by our four key values.

Insightful

Inclusive

Impactful

Inspiring

Be the grad who gets the job

Join the university with the highest graduate employment rate in Australia* – more Charles Sturt University grads get jobs faster than grads from any other uni. Employers know Charles Sturt grads are skilled, confident and ready to get to work.

We've got your back – from day one

Support isn't an 'add-on' – it's part of your experience. We'll introduce you to our support services early and they will be there for you to use whenever you need them.

The best way to learn is to learn by doing

Hands-on learning is at the core of what you'll do here at Charles Sturt University. So from day one, you'll put theory into practice in our world-class facilities and/or on industry placements.

Safe and friendly environment

Our campuses are small, friendly communities, based in vibrant regional Australian locations.

Connections with industry

Our academics and teaching staff are well-connected. So when you graduate, you'll already have a wide network of industry contacts who can help you kickstart your career. We also work with national and international organisations to give you the most relevant knowledge.

You're more than just a number

Small class sizes mean that you get the attention you need – and you'll have a one-to-one connection with your lecturers and tutors. It's just one of the things that sets us apart from other unis.

A diverse community

Our students are from all over Australia and the world; 27 per cent of our students studying in 2018 were international, from 105 different countries.

Fit study around your life and your needs

With Charles Sturt University, you have the flexibility to choose your study path. You can study where and when you like. And we're here to make sure you that you're supported while you do it.

Australia's first certified carbon neutral university

Charles Sturt University is dedicated to providing a degree and student experience like no other university. Our approach to teaching and learning combined with hands-on experience ensures Charles Sturt graduates have the best opportunities to kickstart careers in their chosen profession. With the highest graduate employment rate of any university in Australia, we aim to give you the best opportunity in your chosen profession.

During your studies, you will gain valuable practical and relevant industry experience. As a Charles Sturt University graduate, you will gain an internationally recognised qualification and be well-equipped to make your mark in both national and international workplaces.

Charles Sturt University is Australia's leading regional university, studying here offers an Australian experience like no other. Depending on your preferred course, you can choose to complete your degree from a variety of study locations across regional New South Wales and major capital cities.

Our regional campus environments are unique and full of Australian native wildlife. Our class sizes are small to maintain a quality of teaching that ensures you get the most out of your education.

Choosing a university is an important step. At Charles Sturt University you will enjoy a world-class education in some of the best learning and teaching facilities while being part of a friendly and vibrant student community where you will make real connections.

I look forward to welcoming you to Charles Sturt University.

Andrew Van

Study options

Choose how you study with Charles Sturt University

- Study in Australia at a Charles Sturt University campus in Albury-Wodonga, Bathurst, Canberra, Orange, Port Macquarie or Wagga Wagga.
- Study in Australia at a Charles Sturt University Study Centre in Brisbane, Melbourne or Sydney.
- Study at a Charles Sturt University partner location in Australia or in selected overseas locations, such as Cambodia, China or Hong Kong.
- Study online from your home country.
- If you are studying at another university in your home country, you could spend one or two sessions at Charles Sturt University in Australia as part of our Study Abroad program.

→ study.csu.edu.au/international/study-options

39,675
students are currently studying at Charles Sturt

(2018)

We've got your back

As soon as you accept an offer to study with Charles Sturt University, we've got your back. We have support available every step of the way – however you choose to study.

Study support

Our support team is dedicated to helping you succeed, in person, online or over the phone. We're available seven days a week, and it's free. We'll help you when it suits, including in the evenings and on the weekends.

Careers advice

From researching your career options and finding job opportunities, to help working on your résumé, application letters and interview techniques – our Career Development Service will help you land your dream job.

On-campus student liaison officers

Our international student liaison officers provide support for international students from when you accept your offer. They can help with adjusting to life in Australia, starting your studies and connecting you with your campus community.

English language skills support

You can connect with our English skills advisers at any point during your studies to help improve your language skills and ensure you get the most out of your course.

Equity support

Our Student Equity Office provides advice and support to ensure all our students have the same opportunities to succeed, no matter what their circumstances.

Student Central

This is your first point of contact as an enrolled Charles Sturt University student. If you need a hand with your subject enrolment, study skills, accommodation or finances, or you're just not sure who to ask about something – this is the place to go.

Disability support

If you're a student with a disability, our Disability Service will provide advice, support and adjustments if needed. That way you can participate in all of your studies.

Student wellbeing

Healthy students are happy students. We have a great range of services and information available to keep you in top physical, mental and emotional shape.

Spiritual support

Need to talk to someone about life's most complex questions? We can connect you with religious and spiritual support and access to community resources and services, both on and off campus.

Ally program

Charles Sturt University acknowledges and supports sexual, sex and gender diversity. Ally advocates for and supports LGBTQIA+ students and staff, and encourages an environment that is inclusive, safe and respectful of all persons.

Our campuses

At Charles Sturt University, we're geographically gifted.

“Port Macquarie is a beautiful place to live and the people here are very helpful and friendly. Here we can go anywhere in a short time compared to the busy cities, so it saves a lot of time. In my spare time I like to go to the beach and I have taken up a part-time job at the local supermarket. At the university the teaching quality is excellent, so Charles Sturt offers a great place to live and study.”

Neha Gautambhai Patel
Master of Professional Accounting

Albury-Wodonga

Our campus

The Albury-Wodonga campus is Australia's first environmentally sustainable campus. Rich in flora and fauna, it is a relaxing and eco-friendly study space. Our campus caters to the needs of business, education, environmental science and health students with access to industry-standard facilities and resources.

Albury-Wodonga is home to our Community Engagement and Wellness Centre with facilities and clinics for occupational therapy, physiotherapy and podiatry students to gain practical experience.

→ study.csu.edu.au/albury-wodonga

What is Albury-Wodonga like?

Located on the border of New South Wales and Victoria, the twin cities of Albury and Wodonga have a great range of shops, theatres, cafés and restaurants. You can enjoy a relaxed lifestyle with all the convenience and services you would expect from a larger centre.

Here are just a few of the things you can do in Albury-Wodonga

- Make pizza at the Community Wood Fired Oven.
- Catch a free music concert under the stars.
- Taste the produce at the farmers' market and local wineries.
- Enjoy the outdoor cinema during the summer.
- Head to the nearby snowfields for winter sports.
- Have a weekend away in Melbourne (just three and a half hours' drive away).

Bathurst

Our campus

Our campus at Bathurst offers a great mix of country and city. It sits in a semi-rural setting, but is just a few blocks from the centre of town. Students of the arts, business, communication, computing, education, nursing, paramedicine, psychology, sports science and the social sciences have access to the latest technologies and facilities.

A vibrant social scene also means there is plenty to do beyond your studies, from acting and sports to contributing to the student radio station or a community initiative.

→ study.csu.edu.au/bathurst

What is Bathurst like?

Bathurst has a rich and interesting history of gold rush days. Today, the city has many bars, restaurants and local wineries, as well as numerous sporting and social activities. You can also explore the nearby Blue Mountains National Park.

Here are just a few of the things you can do in Bathurst

- Take in the excitement of the Bathurst 1000 touring car race.
- Explore Bathurst's goldmining heritage and visit the famous Jenolan Caves.
- Get together with friends at the Royal Bathurst Show.
- Go ice skating at the Bathurst Winter Festival.
- Check out the many galleries and museums.
- Visit the theatre at the Bathurst Memorial Entertainment Centre.
- Have a weekend away in Sydney (just three hours' drive away).

Orange

Our campus

Set among rolling hills, Charles Sturt University's campus at Orange is small enough to have a relaxed, community feel but big enough to give you everything you need for the complete university experience. Students of science, dentistry, pharmacy, physiotherapy and sustainable agriculture have access to outstanding facilities and dedicated support. There is also a vibrant social scene of on-campus events and sporting clubs.

→ study.csu.edu.au/orange

What is Orange like?

Orange is renowned for its food. It has numerous cafés, restaurants and bars in which to sample the fantastic produce of the region, as well as boutique shops and extensive sporting facilities. Nearby Mount Canobolas offers hiking and mountain biking, and the sensational scenery of the Blue Mountains is less than two hours' drive away.

Here are just a few of the things you can do in Orange

- Sample delicious local produce at Orange F.O.O.D Week and the Orange Apple Festival.
- Attend a concert at the Orange Regional Conservatorium.
- Explore the many wineries and vineyards.
- Test yourself in the Great Volcanic Mountain Challenge fun run.
- Pick up some fresh local food at the farmers market.

Port Macquarie

Our campus

Port Macquarie is the university's newest campus. It includes brand-new student accommodation, state-of-the-art laboratories and facilities, as well as indoor and outdoor teaching spaces, so you can study in the sunshine.

The campus uses natural building materials to echo the surrounding environment, and students have lots of options for places to study, relax and get together socially.

→ study.csu.edu.au/port-macquarie

What is Port Macquarie like?

Situated in northern New South Wales, Port Macquarie is one of Australia's most beautiful coastal cities. Boasting 18 beaches, it combines a laidback regional lifestyle with a buzzing urban centre.

Port Macquarie really does have the best of both worlds. You can swim, surf and relax at the beach, explore the surrounding wilderness (including rainforests) and find all the restaurants, cafés and shopping you need in the city centre.

Here are just a few of the things you can do in Port Macquarie

- Explore heritage sites, art galleries and festivals.
- Surf, waterski... or skydive.
- Go on a whale-watching cruise.
- Visit Australia's only koala hospital.
- Walk coastal trails and national parks.

Wagga Wagga

Our campus

With Charles Sturt himself the first international explorer to visit the site, Wagga Wagga was destined to become a home for the university. This campus is our largest, and includes a university farm, equine centre, experimental winery and huge range of industry-standard facilities. Students from science and the arts to education, information technology and agriculture make for a vibrant and diverse atmosphere. With a wide range of social and sporting clubs, our Wagga Wagga campus is simply a great place to be.

→ study.csu.edu.au/wagga-wagga

What is Wagga Wagga like?

Wagga Wagga sits on the banks of the Murrumbidgee River, almost halfway between Melbourne and Sydney. It is the largest inland city in New South Wales and is well connected by air, rail or road. It has a proud sporting history and a strong cultural and artistic community.

Here are just a few of the things you can do in Wagga Wagga

- Taste the local produce at the Food and Wine Festival.
- Attend a music festival or film event.
- Have a laugh at the Riverina Comedy Club.
- Enjoy the multicultural Fusion Festival.
- Relax on the banks of Lake Albert or the Murrumbidgee River.

Canberra

Charles Sturt theology students can study through St Mark's National Theological Centre and the Australian Centre for Christianity and Culture. We also have a research centre for postgraduate studies in Canberra.

→ study.csu.edu.au/life/locations/canberra

Parramatta

Charles Sturt University in Parramatta is located within the United Theological College (UTC), one of the premier theological colleges in the Asia-Pacific region. In partnership with St Mark's National Theological Centre in Canberra, UTC delivers a number of postgraduate research and professional degrees, as well as some undergraduate and postgraduate coursework degrees.

→ study.csu.edu.au/life/locations/parramatta

Charles Sturt University partner locations

Charles Sturt University has formal partnerships with a number of TAFE institutions across Canberra, Melbourne and Sydney. These institutions deliver our programs on their campuses. They include the Canberra Institute of Technology's Reid campus, TAFE NSW Crows Nest and Holmesglen's Chadstone campus.

→ study.csu.edu.au/life/locations/partner-locations

Charles Sturt University Study Centres

Charles Sturt Study Centres are located in Brisbane, Melbourne and Sydney – three of the world's most livable cities.

The centres offer small class sizes and modern facilities – all in the heart of a metropolis.

Lecturers with extensive industry experience deliver courses in accounting, business and information technology that will have you ready to start your career from the day you graduate.

→ csustudycentres.edu.au

The Charles Sturt University Study Centres in Brisbane, Melbourne and Sydney are operated by Study Group Australia Pty Ltd ABN 88 070 919 327 under a services agreement with Charles Sturt University ABN 83 878 708 551. All students studying at the Study Centres are enrolled at Charles Sturt University. All staff of the Study Centres are employees of Study Group Australia Pty Ltd.

Brisbane

Study Centre Brisbane is a modern centre located in Brisbane's central business district (CBD). Brisbane offers a truly outdoor lifestyle, with more sunny days per year than any other capital city in Australia. The climate is perfect for enjoying all of the amenities on the Study Centre's doorstep, including shopping, tourist attractions and dining.

The Brisbane study centre offers a Master of Professional Accounting (12 subject) or Master of Information Technology (12 subject).

The city

Located on the banks of the Brisbane River, the city of Brisbane is green and leafy with a subtropical climate and a diverse population. It is one of Australia's fastest growing cities and is renowned for its outdoor lifestyle and vibrant urban culture, where the people are friendly and welcoming.

Brisbane is the capital of Queensland and is considered one of Australia's most affordable metropolitan cities to study and live. The CBD is surrounded by green spaces including the lush City Botanic Gardens, South Bank Parklands and Roma Street Parkland – ideal places to enjoy the outdoors in perfect weather with a snack and a game of cricket or soccer.

Student facilities

Charles Sturt campuses have different facilities. Here are some of the facilities you could find on your campus.

Libraries

The library is at the heart of your study experience, but you don't have to physically be there to access its resources.

Our library buildings have extensive catalogues, shared study areas and computer workstations, and provide a haven for reading and working.

And we also have an extensive online library that contains eJournals, eBooks and course readings.

We have orientation workshops to help you get a handle on accessing the information you need.

On some campuses you can also pick up and return books outside of opening hours with our digital lending system, or track which books you have out – and their return dates – online.

You'll also have access to our digital learning environments and online resources via free wi-fi across the entire campus.

If you're studying online and can't get to a library, we can post books out to you free of charge.

Plus, if you need a hand, a librarian is only ever a conversation, phone call or email away.

- 24-hour learning commons
- Sports areas
- Barbecue areas
- Bike racks
- Cafés
- Dining halls
- Discounted dental clinics
- Gyms
- Computer labs
- Bars
- Swimming pools
- Free parking

Living at Charles Sturt

Wherever your studies take you with Charles Sturt University, you'll get a warm welcome. Stay in comfortable, safe and secure accommodation, and enjoy a stress-free living experience.

And that's not all.

- Guaranteed room for every international student.
- All-inclusive costs – no extra bills to worry about.
- No bond required.
- All rooms fully furnished.
- All accommodation has internet access at no extra cost.

Everyone is different, and we want to make sure your on-campus experience suits you. That's why our accommodation ranges from classic halls of residence to villages (most with facilities for disabled students). It's also why we offer a variety of accommodation and dining packages to suit your lifestyle.

- Stay throughout the year or stay during your study sessions and vacate during the breaks.
- Choose a catering package for some or all of your meals.

You are conveniently at the heart of the action – everything from your lectures to your mates is on your doorstep.

Weekly cost of living

This table outlines estimated weekly costs for common student expenses.

	Catered on campus Ba, WW	Non-catered on campus AW, Ba, Or, PM, WW	Share house off campus
Rent	\$205-\$435	\$165-\$285	\$85-\$215

→ accommodation.csu.edu.au

We have accommodation on all of our campuses across New South Wales, offering the laidback lifestyle of country living with urban convenience.

What's life at uni really like?

When you study on campus with Charles Sturt University, you become part of something bigger. Something bigger than yourself. Bigger than study.

You become part of a community.

You become family.

You're one of us. And we can't wait to see the difference you make to the world.

Orientation

When you start at Charles Sturt, we help you find your feet. Orientation gives you the chance to settle into uni life, meet academics and your fellow students, attend academic preparation workshops and explore the learning facilities.

Get to know the Charles Sturt family

In case you haven't noticed, we're a pretty social bunch. Between formal balls, live music gigs, movie nights and barbecues – boredom isn't a thing at Charles Sturt University. There's always something going on.

Studying online? There's plenty of Facebook groups and online hangouts so you can connect with your classmates and build solid friendships.

Events for international students

Our international student liaison officers organise regular catch-ups and events specifically for international students. You can network and explore various parts of Australia together, such as national parks and wildlife sanctuaries.

Get involved – we have a club for everyone

If you're into it, we probably have a club for it. We've got study groups, sports clubs, social clubs, religious groups, as well as music and film groups. Uni isn't all about study. It's also about meeting new people, experiencing new things and personal growth.

Build your soft skills and your chances of landing a job

There are loads of ways to get involved and make a difference at Charles Sturt University – from tree-planting days and volunteering locally, to signing up for leadership opportunities like our STRIVE program or joining the student representative committee.

Things like this allow you to develop 'soft skills' – skills that are easily transferable to any job and look great on your résumé.

→ study.csu.edu.au/life

Charles Sturt University has 102 clubs with more than 8000 members.

Cost of study in Australia

Campuses

The overall cost of getting a degree at Charles Sturt University is very competitive when compared to other universities in Australia. Our students find that the cost of living is lower in a regional centre compared to metropolitan locations.

As a guide, the Department of Home Affairs advises the estimated cost for a single student studying in Australia (including accommodation, meals, textbooks, personal incidentals, transportation and entertainment) amounts to a total of approximately AUD\$1754 per month (AUD\$21,041 per year). If you intend to bring your spouse, you will need at least an additional AUD\$7362 per year and AUD\$3152 per year for each child.

There will also be the cost of a return trip home and international phone calls.

Visit the Study in Australia website
→ studyinaustralia.gov.au

Students with families

School-aged dependent children (between ages five and 18) in Australia for three months or more are required to be enrolled in school. You will be required to pay full fees to enrol your children in either a government or non-government school. However, New South Wales government school education fees are waived for the dependants of international postgraduate doctoral students.

For an indication of school fees, visit
→ deinternational.nsw.edu.au

On-campus accommodation is very limited for couples, and is not available for families.

Working in Australia

There are opportunities for students to gain casual or part-time work while studying in Australia. This is a great way to meet new people and make connections in the local area, while also helping to support yourself financially during your studies. Once your course has commenced, you are permitted to work a maximum of 40 hours per fortnight during study sessions and unlimited hours during study breaks.

For further information about working while studying in Australia, visit
→ homeaffairs.gov.au

Tuition fees

Fees can be paid via the Western Union international student payment portal.

Information on tuition fees is shown in Australian dollars and can be found in the course listings in this book, on course web pages or at

→ study.csu.edu.au/international/apply/fees-costs/student-fees

Health insurance

As an overseas student you are required to have Overseas Student Health Cover (OSHC) for the duration of your student visa in Australia. OSHC will help you to pay for most medical and hospital care you need while studying in Australia. OSHC covers you for doctors, hospitals, ambulance and prescription drugs. Charles Sturt University will assist you in obtaining your OSHC membership.

Charles Sturt University can issue fee refunds if you are unable to start your course or need to withdraw after commencement.

Our refund policy contains full details of when, how and in what amount your fees will be refunded by the university.

→ policy.csu.edu.au/view.current.php?id=00350

Australian Government Scholarships

We are approved to host Australia Awards Scholarship recipients. These scholarships are designed to build mutual understanding, knowledge and partnerships between nations in the Asia-Pacific region through study, research, professional development activities and international education.

You may also like to explore the Endeavour Leadership Program managed by the Department of Education and Training. This program supports students to undertake study, research and professional development programs in Australia and for Australians to undertake these activities overseas.

→ study.csu.edu.au/international/apply/fees-costs/scholarships

Student Services and Amenities fees (SSAF)

This is a contribution towards the provision of student services and amenities. It does not cover the cost of all services. In 2019, the SSAF was \$37 per 8-point subject, with a maximum annual fee amount capped at \$296 per student. Fees will be indexed and may increase each calendar year.

Your SSAF will depend on the number of subjects you enrol in.

→ study.csu.edu.au/international/apply/fees-costs

Other costs

For more information about the approximate costs involved in living and studying in Australia, see page 21.

Research at Charles Sturt

- Charles Sturt University has four dedicated research centres where staff and students can combine their expertise.
- Collaboration and interdisciplinary research is actively encouraged.
- Support is provided for research students through supervision, seminars and workshops.
- Charles Sturt University's staff profile includes around 140 professors, including 15 strategic research professors employed to further enhance our research capacity.

Charles Sturt University operates in a paradigm of research excellence and partnership. We aim to provide meaningful outcomes for industry, government, business and communities. We are committed to building knowledge and innovation to meet the needs of people across our regions, the nation and the world.

We focus our research on three broad interdisciplinary areas.

Resilient people – our research contributes to the development of educated, healthy, resilient people.

Sustainable environments – we develop sustainable solutions for agriculture and water resources, while enhancing the biodiversity of our environments and strengthening ecosystems.

Flourishing communities – our research contributes to developing communities, helping them to thrive economically and form strong social frameworks where diversity and harmony can reside.

Agricultural and Wine Sciences

Agriculture. Working – and taking care of – the land. It's the backbone of our nation's economy. And as the farming, agriculture and wine industries increasingly harness technology to progress – the demand for agriculture professionals grows. And it's people just like you who can push things forward.

At Charles Sturt University, we have a rich history with the land. It's in our blood. Our agriculture and wine science degrees tap into this longstanding connection, so you can become a thinker and doer in tomorrow's agricultural landscape.

Agriculture is also about much more than working on the land. From finance, sales and marketing to science, media and information technology – your career can be as broad as the blue skies above.

So, are you ready to get to work?

Facilities

Winery

Explore the science of winemaking using grapes mostly sourced from our alumni viticulturists at our purpose-built experimental winery. You'll also have the chance to be part of research programs that steer the future of Australia's wine industry.

Glasshouse facilities

Find out how crops grow with specialist mechanical, lighting and humidity systems in our modern glasshouses.

National Life and Sciences Hub (NaLSH)

Research food security and human, plant and animal health at our purpose-built facility that includes four large research laboratory spaces and a phytotron building housing controlled environment and growth chambers.

On-campus farm

With Charles Sturt, you'll have access to 1400 hectares of prime mixed farming land and agricultural research institutions – so you can gain real-world experience with paddocks, crops and farm animals.

Rhizolysimeter

Research root growth using the most sophisticated rhizolysimeter in the southern hemisphere. This state-of-the-art facility simulates crop growth in order to investigate its impact on dryland salinity.

Wine tasting and sensory rooms

Uncover the complex relationships associated with grape production, wine composition and wine sensory features. Develop your practical skills by tasting and assessing wines in our purpose-built facility.

Wine laboratories

Make new discoveries about wine production and conduct research in our state-of-the-art laboratories.

Bachelor of Agricultural Business Management

Charles Sturt University's Bachelor of Agricultural Business Management produces graduates skilled in agricultural practice and ready to take up management positions.

Enrolment information	
Campus	WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	O57781F

Career opportunities

- Commodity trader
- Farm manager
- Grain buyer
- International marketer
- Rural financier
- Agribusiness manager

About the course

Consultation with industry leaders in the agricultural sector has identified the need for graduates skilled in business, management and finance who have technical agricultural training, and managers trained in agricultural production enterprises. This course has been tailored to ensure it delivers such graduates.

In the area of agricultural production, you'll study crop and pasture production and management, soil science, livestock production systems, property planning and horticulture.

In the area of agribusiness management, you will learn about rural management, business economics, the agribusiness supply chain, financial planning, marketing, business law, commodity pricing, risk management and human resource management.

Employment opportunities range from the rural service industries of regional areas to international trade and finance activities undertaken by multinational corporations. You will have many career options in marketing, accounting, finance, people management, international business, agricultural enterprise management and sustainable resource management.

Bachelor of Agricultural Science

Bachelor of Agriculture
Associate Degree in Farm Production
Includes integrated Honours

Charles Sturt University's Bachelor of Agricultural Science (and its nested qualifications) provides graduates with the knowledge, skills and experience necessary to be the future leaders and innovators within the global agricultural industry.

Enrolment information	
Campus	WW
Course duration	2-4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	O68869G

Career opportunities

- Agronomist
- Farm manager
- Farming systems consultant
- Rural financier
- Agricultural researcher

About the course

The Bachelor of Agricultural Science is a nested qualification with flexibility to enroll into or exit after 2 years (Associate degree in Farm Production), 3 years (Bachelor of Agriculture) or 4 years (Bachelor of Agricultural Science).

In year one of these nested courses, you'll build a strong foundation in contemporary agricultural systems and the basic sciences (biology, animal and plant anatomy and physiology, chemistry, microbiology and soil science).

In year 2, you'll study applied topics around agribusiness, precision agriculture, plant protection, biotechnology and livestock management. Your workplace learning experiences will help inform your choice of major from agronomy, livestock production, mixed farm business, horticulture and digital agriculture. In the fourth year, you'll undertake a mentored industry internship and choose subjects to build entrepreneurial or consultancy skills. You can also choose an agricultural research (Honours) pathway.

→ study.csu.edu.au/ag-science

Master of Sustainable Agriculture

Graduate Diploma of Sustainable Agriculture
Graduate Certificate in Sustainable Agriculture

Charles Sturt University's sustainable agriculture program is flexible, and designed to meet the needs of agriculture by equipping you with the necessary skills to balance the natural resource, human and economic factors that affect agricultural sustainability.

Enrolment information	
Campus	Or
Course duration	Master: 1.5 years FT Grad Dip: 1 year FT Grad Cert: 0.5 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$31,200
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	O65836G

About the course

The sustainable agriculture program brings together studies in the three key domains of sustainability: agricultural and natural systems, agribusiness and the humanities.

Through the development of creative and critical perspectives on sustainability, this course focuses on innovative ways of enhancing agriculture to meet the challenges of the future.

You will be able to provide leadership in policy, research and strategic management that is relevant to a wide range of industry contexts.

You will also develop advanced problem-solving skills that will help you take on positions of responsibility in your chosen field, and provide opportunities for focused research within a specific discipline area.

Charles Sturt University's courses in sustainable agriculture are ideal for retraining professionals to redirect or enhance your existing capabilities for a career in the agricultural or agribusiness sectors.

“Growing up on a mixed farm for most my life, I have been exposed to agriculture and the great lifestyle that goes with it. There are so many different career pathways in agriculture that I find very appealing. You're not just stuck in one job all your life, and every day in agriculture is different! I find agriculture fascinating and have always wanted to learn more about the processes behind how the world feeds itself.”

Dylan Male
Bachelor of Agricultural Science

Allied Health and Pharmacy

As an allied health professional, you'll help people prevent and manage chronic conditions and recover from injury or illness. We know the words that just caught your eye there: help people. You're nurturing and a natural when it comes to empowering those around you. Put your innate skills to work with a career in the growing health industry.

When you study with Charles Sturt University, your course will involve so much more than just learning from a textbook. Our world-class facilities mean that you'll have access to state-of-the-art labs, equipment and simulated environments. Here, you'll hone your practical skills. So when it comes time for graduation, you'll be job-ready and confident to make an impact on the world.

Allied health professionals make up around 25 per cent of Australia's healthcare workforce. So if you're looking at a career in allied health – it's a smart move. You're always going to be in demand.

Facilities

Clinical simulation centre

Experience real-world scenarios while you're still in training. Our simulated environments teach you to think on your feet when dealing with an emergency situation.

Community Engagement and Wellness Centre

Here, our occupational therapy, physiotherapy, podiatry and speech pathology students get to work directly with the public – gaining hands-on experience and giving back to the community.

Lab and gym spaces

Build your skills, knowledge and confidence in our anatomy lab and musculoskeletal and neurological rehabilitation gym space. You'll learn all about the human body and have the chance to develop your anatomical knowledge – working with real patients from the start of your degree.

Simulation pharmacy

Practice makes perfect – so working in our simulation pharmacy is the perfect preparation to hit the ground running and be ready for the real-world pharmacy environment.

“Charles Sturt University made it possible for me to pursue my passion for physiotherapy by offering such a high-quality program with competitive fees and the added bonus of an affordable cost of living.”

Bachelor of Health and Rehabilitation Science

Graduates of Charles Sturt University's Bachelor of Health and Rehabilitation Science will have a holistic approach to health and wellbeing and will work with people of all ages to regain their independence through rehabilitation.

Enrolment information	
Campus	AW
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.5, no score lower than 6.5
Study mode	On campus, Online
CRICOS	065836G

Career opportunities

- Care services manager
- Case or project manager
- Health or program coordinator
- Health promotion officer

About the course

This course teaches the skills necessary to become a responsive and accountable healthcare worker capable of meeting the challenges and future needs of the Australian healthcare system.

You will develop:

- an understanding of the principles of health and rehabilitation
- extensive knowledge of anatomy and how the body functions
- knowledge about human development
- an understanding of psychology and sociology
- knowledge of disease management and how to improve health and wellbeing
- skills in how to run a health education / community development program.

Graduates will work in community health settings and in local government and non-government organisations.

Workplace learning

You will complete workplace learning throughout the course, beginning in the first year.

→ study.csu.edu.au/health-rehab

Bachelor of Occupational Therapy

Includes integrated Honours

Charles Sturt University's Bachelor of Occupational Therapy prepares you for professional practice as an occupational therapist with the knowledge and skills to work in a range of health and social care settings.

Enrolment information	
Campus	AW, PM
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.5, no score lower than 6.5
Study mode	On campus
CRICOS	016828B

Career opportunities

- Occupational therapist

About the course

This course prepares you for work in hospitals and community healthcare settings, rehabilitation units, human resource management, government policy units and private practice.

You will be equipped to work with people who have an impairment of body structure or function, and who experience barriers to participation in everyday activities. Current practice issues are emphasised, including quality management of services, ethical issues, research and communication skills.

At the end of the second year, if you are maintaining a high grade point average, you can choose to apply to enter the Honours stream.

Workplace learning

Students complete 1000 hours of workplace learning in a range of settings, primarily in New South Wales and Victoria. It is also possible to do placements in other Australian states, as well as overseas.

Professional recognition

This course is accredited by the Occupational Therapy Board of Australia on behalf of the Australian Health Practitioner Regulation Agency (AHPRA), and by Occupational Therapy Australia Ltd on behalf of the World Federation of Occupational Therapists (WFOT).

→ study.csu.edu.au/occupational-therapy

Bachelor of Paramedicine

Includes integrated Honours

Charles Sturt University's Bachelor of Paramedicine provides a pathway to working in emergency care and paramedic areas as a qualified ambulance officer in Australia and overseas.

Enrolment information	
Campus	Ba, PM
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	7.0, no score lower than 6.5
Study mode	On campus, Online
CRICOS	036176A

Career opportunities

- Paramedic

About the course

During this course you will benefit from a focus on practical experience, spending up to four hours each week practising your skills in a simulated paramedic environment, using the latest equipment.

You'll develop skills in clinical procedures such as advanced cardiac life support, ECG analysis and management, airway management including endotracheal intubation, laryngeal mask airways, cricothyrotomy and percutaneous transtracheal ventilation. Advanced life support for paediatric patients is also covered. Upon satisfying academic requirements at the end of your second year of study, you may be eligible to transfer to the Honours degree.

Workplace learning

You will learn the principles and techniques of major incident prevention, preparedness, response and recovery, and gain experience in major incident medical response principles through participation in a field exercise.

Clinical placement is undertaken in authorised healthcare settings as you progress through the course.

Professional recognition

This course has been developed in consultation with ambulance industry representatives from across Australia. It has received accreditation from the Council of Ambulance Authorities.

→ study.csu.edu.au/paramedicine

Bachelor of Pharmacy

Charles Sturt University's Bachelor of Pharmacy incorporates diverse practice such as community or hospital and compounding pharmacy, dispensing, medication management and health counselling, to equip you with skills for immediate employment.

Enrolment information	
Campus	Or
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	7.0, no score lower than 6.5
Study mode	On campus
CRICOS	022016K

Career opportunities

- Pharmacist
- Researcher (with additional studies)

About the course

You will study biomedical and applied sciences and develop knowledge and skills in health promotion, clinical practice and health information management.

You will receive personalised instruction from highly qualified teaching staff, including registered pharmacists with extensive industry links and experience. You will apply your knowledge in state-of-the-art laboratories and a pharmacy simulation setting, along with workplace learning; this ensures that you graduate with the confidence to make your mark.

Graduates are highly respected in the industry, providing opportunities for employment in rural and metropolitan healthcare settings such as hospitals, community healthcare, government agencies, the pharmaceutical industry, research institutions and teaching pharmacies.

Workplace learning

You will be given the opportunity to apply your theoretical knowledge to real problems in the practice of pharmacy by completing placements, primarily in a hospital or community pharmacy.

Professional recognition

This course is accredited with the Australian Pharmacy Council, and Charles Sturt University is one of only eight Australian universities recognised by the Singapore Pharmacy Council.

→ study.csu.edu.au/pharmacy

Bachelor of Physiotherapy

Includes integrated Honours

Charles Sturt University's Bachelor of Physiotherapy prepares you for registration and employment as a physiotherapist.

Enrolment information

Campus	AW, Or, PM
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$33,600
IELTS	6.5, no score lower than 6.5
Study mode	On campus
CRICOS	039053K

Career opportunities

- Physiotherapist

About the course

Physiotherapy is an important part of the healthcare system. The demand for physiotherapists continues to grow in Australia and across the globe.

You'll study subjects such as anatomy, physiology, pathophysiology, exercise science, biomechanics, sports medicine, health promotion and rehabilitation and have access to state-of-the-art equipment and facilities.

You will develop clinical and professional skills to assess and manage conditions across the lifespan, helping people maintain their health, physical function and lifestyle.

Job opportunities exist in hospitals, within the community and in private practice. You can also work in education, management, research, rehabilitation centres, or as a consultant in public or private healthcare centres.

At the end of the second year, if you are maintaining a high grade point average, you can apply for Honours.

Workplace learning

You will complete 1000 hours of workplace learning, applying knowledge and developing practical skills in a range of settings, primarily in New South Wales and Victoria. It is also possible to do placements in other Australian states, as well as overseas.

Professional recognition

This course is accredited with the Australian Physiotherapy Council.

→ study.csu.edu.au/physio

Bachelor of Podiatric Medicine

Includes integrated Honours

Graduates of Charles Sturt's Bachelor of Podiatric Medicine develop extensive knowledge and skills in the assessment, diagnosis, prevention and treatment of disorders of the feet and lower limbs.

Enrolment information

Campus	AW
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.5, no score lower than 6.5
Study mode	On campus

Animal and Veterinary Sciences

Two things set our animal and veterinary science degrees apart from the rest: our reputation and the hands-on learning component of our courses.

Our reputation as a leading animal and vet science educator precedes us. If you want to study animals, you go to Charles Sturt University. And we think that has something to do with our ties to the land. Our courses have a strong regional focus, but you also gain the skills and knowledge to work anywhere in the world.

As a Charles Sturt student, you won't just learn it – you'll live it. Hands-on learning is a way of life for us. Whether you're applying your knowledge in our on-campus facilities or building practical skills through workplace learning, you'll be laying the foundations so you can make your mark when you graduate.

Facilities

Olympic-standard equine centre

Both equine science and veterinary science students have the opportunity to experience the excellent equine training and competition centre at Charles Sturt's Wagga Wagga campus. You'll also have access to other facilities like a high-speed treadmill, large covered horse walker and numerous stables and yards.

On-campus farm

With Charles Sturt, you'll have access to 1400 hectares of prime mixed farming land right at your doorstep. You'll also have the chance to work with on-campus research institutions – so you can gain real-world experience across a range of animal sciences.

National Life and Sciences Hub (NaLSH)

Get hands-on and learn the underlying sciences for animal health in our state-of-the-art, purpose-built science facility. You'll have the chance to work in four large research laboratory spaces and have access to world-class equipment from day one.

Veterinary clinical centre

Here, you'll find a modern large animal hospital with operating theatres, an intensive care unit, sophisticated diagnostic facilities, isolation boxes, a reproductive unit and small animal teaching labs.

Veterinary pre-clinical centre

The pre-clinical centre is a hub for teaching veterinary anatomy and physiology, with light-filled, spacious laboratories, tutorial rooms and a veterinary museum. This space also includes a mock consultation room, so you have the chance to develop your communication skills.

Veterinary diagnostic laboratory

Build your practical skills and training by providing veterinary diagnostic services to the region's veterinary community and livestock producers.

You could work in:

- Animal science
- Equine science
- Veterinary biology
- Veterinary science
- Veterinary technology

Bachelor of Animal Science

Includes integrated Honours

Charles Sturt University's Bachelor of Animal Science provides training and knowledge in the major disciplines that underpin animal sciences, preparing you for diverse career opportunities working with animals or within animal-related industries.

Enrolment information	
Campus	WW
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus
CRICOS	068972G

Career opportunities

- Animal production consultant
- Field or extension officer
- Researcher/academic
- Welfare, reproduction or nutrition officer

About the course

Animal scientists work across the world, from the extensive grazing systems of Australia to the research laboratories of the world's foremost universities, and with all types of animals, from the smallest pets to the largest farm animals and everything in between, including exotics. This course provides instruction in the basic sciences, research skills and the health, welfare, behaviour, nutrition, genetics and breeding of animals, including farm animals, pets, performance animals, wildlife and zoo animals.

You can expect career opportunities in research, government advisory or regulatory roles, and industries allied to animal health, welfare, nutrition and the management of production animals or free-living or captive wild animals.

If you attain a high academic standard you will be eligible to apply to enter the Honours stream in year four.

Workplace learning

You will enjoy learning in some of the best facilities of their kind in the world, including state-of-the-art laboratories and a range of animal handling facilities, as well as undertaking compulsory extra-mural training within relevant industries.

→ study.csu.edu.au/animal-science

Bachelor of Equine Science (with specialisation)

Charles Sturt University's Bachelor of Equine Science (with specialisation) incorporates extensive theoretical and practical training in equine science to produce graduates equipped to work in a rapidly changing global equine industry.

Enrolment information	
Campus	WW
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	012005G

Career opportunities

- Equine or allied businesses manager
- Nutrition consultant
- Horse trainer / welfare officer
- Lecturer/researcher
- Reproduction technologist

About the course

The Bachelor of Equine Science (with specialisation) provides you with the opportunity to focus purely on equine science or to incorporate business management into your studies. This course has a strong practical emphasis and is designed to prepare you for a successful career working in the equine and allied industries. Charles Sturt University equine science graduates are widely recognised for their contemporary knowledge, practical proficiency and adaptability to a changing industry.

Graduates work in horse training, breeding management and reproduction, para-professional health, nutrition, rehabilitation, product development, performance, sports, rescue and welfare. Some have forged careers in education, while others have pursued research interests through postgraduate qualifications.

Workplace learning

You will have access to world-class facilities, such as Charles Sturt's Equine Centre, with indoor and outdoor arenas, high-speed treadmill, a mixed horse herd, laboratories, museum, practical rooms, animal handling facilities and extensive digital learning resources.

→ study.csu.edu.au/equine

Bachelor of Veterinary Biology / Bachelor of Veterinary Science

Includes integrated Honours

Charles Sturt University's Bachelor of Veterinary Biology / Bachelor of Veterinary Science prepares you for a career in mixed veterinary practice and other veterinary-related fields.

Enrolment information	
Campus	WW
Course duration	6 years FT
Session intake	March
Additional criteria	Int, SAF
Indicative yearly fee	\$60,800
IELTS	7.0, no score lower than 7.0
Study mode	On campus
CRICOS	068968D

Career opportunities

- Clinical veterinarian
- Government veterinarian
- Herd and welfare consultant
- Researcher

About the course

If you have a passion for animals and a commitment to animal production, animal welfare and the veterinary profession and/or wish to work in a veterinary clinic, this is the course for you. It provides the knowledge and skills to work with a range of species including production and companion animals. Veterinarians are employed in private practice, the public sector, research and diagnostic services, pharmaceutical development and captive animal health. If you attain a high academic standard, you will be eligible to apply to enter the Honours stream in year five.

Workplace learning

You'll learn in Charles Sturt University's world-class facilities, such as the Veterinary Clinical Centre, Veterinary Teaching Hospital and Veterinary Diagnostic Laboratory.

Professional recognition

This course is accredited by the Australasian Veterinary Boards Council, the Veterinary Council of New Zealand, the Royal College of Veterinary Surgeons in the United Kingdom (UK), the South African Veterinary Council, and the Agri-Food and Veterinary Authority of Singapore. Graduates can practice in the UK, Australia, New Zealand, Hong Kong, Singapore and South Africa.

Master of Animal Science

Charles Sturt University's Master of Animal Science (by coursework) promotes advanced critical reflection on professional practice in the animal industries and prepares you for leadership positions.

Enrolment information	
Campus	WW
Course duration	1.5 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$31,040
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	068969C

About the course

The Master of Animal Science aims to:

- meet the educational needs of professionals working in the ever-evolving animal industries
- promote the acquisition of advanced analytical, problem-solving skills and conceptual insights that will enable you to assume positions of leadership within the animal industries
- encourage excellence in scholarship and/or focused research within candidates' discipline areas.

You will extend your knowledge of the disciplines that form the basis of your profession while planning and implementing a small research project. The course explores methods for the analysis of data sets and their interpretation.

You will develop concepts in animal science to an advanced level of understanding of areas specific to your coursework.

You can select from across animal health and production, equine science or the farm consultancy streams to individualise your learning opportunities.

You will be offered postgraduate training in whole farm consultancy, which is aimed at veterinarians and agricultural graduates who would like to offer consultancy services to their clients.

About the course

The Bachelor of Accounting will provide you with the skills you need to become an in-demand business professional.

The flexible program of study gives you room to specialise in a second discipline through joint studies in areas such as banking, economics, finance, human resource management, marketing or even psychology.

Accountants hold some of the most dynamic and influential positions in the world. Every organisation, in every industry across the globe – from agriculture to mining, from global finance to not-for-profit – relies on innovative people who can solve complex business problems.

Career options include public practice, commerce and industry, and government, semi-government and not-for-profit organisations. Beyond your day job, you could contribute your expertise to a local community organisation through a board or committee position.

Professional recognition

The Bachelor of Accounting is accredited by CPA Australia and Chartered Accountants Australia and New Zealand. You'll be ready to take the next step and join a worldwide network of chartered accountants and certified practising accountants.

Bachelor of Business (Management)

Charles Sturt University's Bachelor of Business (Management) is designed to develop professional capabilities in a broad range of management areas.

Enrolment information	
Campus	AW, Ba, WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$28,244
Fee with regional scholarship	\$25,584
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	068867J

Career opportunities

- Department head, supervisor or administrator in private, not-for-profit or government organisations
- Entrepreneur / small business owner
- Management consultant
- Project manager

About the course

This specialisation allows you to pursue a career in middle management in industry and commerce. As a graduate, you will apply specialist knowledge and skills to coordinate activities and resources in an organisation to achieve strategic goals.

This course will prepare you for all aspects of business operations and the development of specific career skills. An optimum blend of theory and practice is offered, with a combination of subjects equipping you with soft skills for working with people, and the hard skills directed at areas such as economics, law, operations, project management, strategy, change management and international management.

The Bachelor of Business (Management) also gives you the opportunity to specialise in a second area by enrolling in a joint study. Choose from a wide range of options such as accounting, marketing, finance, information systems, legal studies or even non-business areas such as organisational communication and public relations, psychology or sociology.

→ study.csu.edu.au/business-management

Bachelor of Business (Marketing)

Charles Sturt University's Bachelor of Business (Marketing) equips you for a career in marketing management.

Enrolment information	
Campus	AW, Ba
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$28,244
Fee with regional scholarship	\$25,584
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	006177D

Career opportunities

- Brand/product manager
- Customer relations manager
- Digital and social media manager
- Marketing research insights analyst
- Sales and subscription coordinator

About the course

Marketing managers launch products, develop and maintain a brand's image, and formulate marketing and communication plans to generate, maintain and increase existing business. This course gives you the practical skills and grounding to develop a career in a fast-evolving industry boasting global demand and opportunities. The focus is on creativity, communication, digital media, market analysis, and project planning and management skills.

You'll be educated to respond to the needs of industry and commerce, particularly in digital and social media, market analysis, and international and strategic marketing.

A principal advantage of this course is the opportunity to specialise in a second area by enrolling in a joint study. Choose from a wide range of options, such as advertising, marketing, communication and digital media, management, online business, information systems, organisational communication and public relations, psychology, sociology and cultural heritage management. Specialisations are available in accounting and finance, entrepreneurship and leadership, human resource management, IT and marketing.

→ study.csu.edu.au/business-marketing

Bachelor of Business Studies

Charles Sturt University's Bachelor of Business Studies is a flexible, generalist undergraduate degree, with a wide range of career opportunities and choices available to graduates.

Enrolment information	
Campus	AW, Ba, PM, WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$28,244
Fee with regional scholarship	\$25,584
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	029254F

Career opportunities

- Business manager
- Digital marketing specialist
- Business consultant
- Operations manager

About the course

This course allows you to construct a program of study that best meets your interests and future work plans. The course draws upon the extensive portfolio of business subjects offered at Charles Sturt University, as well as subject offerings of other Charles Sturt faculties.

You can choose subjects from a wide range of business disciplines including marketing, management, information technology, accounting, economics, finance, leadership, project management and human resource management to build a degree tailored to your interests.

There are no specialisations in this program. However, you may choose to cluster subject choices around particular areas of interest, or opt for an array of areas of study to give a taste of the various business areas to better inform you about potential career choices. Clusters include accounting, dispute resolution, economics, finance, human resources, information systems, innovation and entrepreneurship, international business, legal studies, management, marketing, communication and digital media, and small business management. You are also encouraged to consider undertaking subjects that develop job-ready skills.

→ study.csu.edu.au/business-studies

Master of Professional Accounting – 12 subjects

Charles Sturt University's Master of Professional Accounting is designed to build upon previous non-accounting undergraduate studies, and to add conceptual depth by concentrating on studies in accounting and related disciplines.

Enrolment information	
Campus	PM
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$23,952
Fee with regional scholarship	\$20,736
IELTS	6.0, no score lower than 5.5, no score lower than 6.0 for writing
Study mode	On campus, Online
CRICOS	069161B

About the course

The Master of Professional Accounting provides generalised professional accounting education to graduates of non-accounting disciplines. It satisfies the academic requirements of Chartered Accountants Australia and New Zealand and CPA Australia.

Designed for students looking for a change in career, it can lead to employment in financial management, public practice, commerce and industry, government and semi-government organisations, and accounting education.

The course will prepare you to undertake and evaluate the conceptual basis of accounting and financial decision-making; understand, evaluate and apply the principles of current accounting practice; and recognise and analyse the impact of the business environment on accounting theory and its application.

→ study.csu.edu.au/master-pro-accounting-12

Christian Theology and Ministry

When you study theology, you embark on a journey to explore and deepen your faith.

The Bachelor of Theology introduces you to the four main disciplines of theology: biblical studies, church history, systematic theology and practical theology. Our staff are faithful Christians from a variety of traditions, and our student community is diverse and inclusive. In this degree, you'll learn how to respond to contemporary issues including social inequality, environmental degradation, racism, violence, and colonialism through a theological lens.

Examine and expand your faith online or on campus at one of our partner colleges.

- St Barnabas College, Adelaide
- St Francis College, Brisbane
- St Mark's National Theological Centre, Canberra
- United Theological College, North Parramatta

Are you ready to experience a vibrant theological education? You can with Charles Sturt University.

→ csu.edu.au/theology

You could work in:

- Chaplaincy
- Christian ministry
- Community work
- Pastoral care
- Religious education

Bachelor of Theology

Charles Sturt University's Bachelor of Theology is designed to equip you with a wide range of skills that are applicable in a variety of professions, or to complement studies in another discipline.

Enrolment information	
Campus	Can, Parr
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$20,000
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	022012C

Career opportunities

- Chaplain
- Overseas aid worker
- Youth worker

About the course

Charles Sturt's Bachelor of Theology encourages and fosters the search for meaning and spiritual depth in the context of cultural and religious pluralism in contemporary Australia. You are offered a thorough grounding in the four foundational areas of theology: biblical studies, church history, practical theology and systematic theology. Each has a strong basis in biblical studies.

In first year you are introduced to the four subdisciplines and introductory subjects in the Old and New Testaments. You will study two subjects in church history: one on the early church and the other on the Reformation. This is complemented by two subjects from practical theology: one on worship and the other an introduction to practical theology itself. The course is rounded off with two subjects in systematic theology providing an introduction to theology and a subject on the theology of the church. The intention here is that you are opened up to the range of possibilities in theology and also invited to explore how you can integrate these four areas.

Workplace learning

If you are looking to ordination or professional ministry, you will find subject offerings that are vocationally oriented, ecumenically sensitive and integrated with practical experience.

→ study.csu.edu.au/theology

Master of Ministry

Charles Sturt University's Master of Ministry assists practising clergy and other church leaders to advance their knowledge and skills. The course includes specialist study in particular fields of ministry, and a research option may also be undertaken.

Enrolment information	
Campus	Can, Parr
Course duration	1.5 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$20,000
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	042758F

Career opportunities

- Chaplain or minister
- Church leader

About the course

Charles Sturt's Master of Ministry provides opportunities for professional development at a master's level in the field of professional ministry. It engenders a higher order of critical, creative, scholarly, sound and informed investigation of the profession.

The course also fosters the application of advanced knowledge of a specialist body of theoretical and applied topics to a specialised field of professional ministry.

By helping you to enhance creativity and flexibility in the application of knowledge and skills to new situations, it improves the ability to solve complex problems and think rigorously and independently.

Studying this course allows you to plan and execute a project or a piece of scholarship or research through critical analysis and systematic, practical and professional application.

Graduates will demonstrate advanced competence in one of the following fields:

- church leadership and management
- institutional chaplaincy
- mission and leadership
- pastoral counselling
- research in ministry.

→ study.csu.edu.au/master-ministry

Master of Theology

Charles Sturt University's Master of Theology will expand your existing skills developed through previous theological study and set you on the pathway to a Higher Degree by Research in theology.

Enrolment information	
Campus	Can, Parr
Course duration	1.5 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$20,000
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	025512C

Career opportunities

- Church leader
- Minister
- Missionary

About the course

Charles Sturt's Master of Theology is designed to:

- develop an advanced critical, creative and scholarly understanding of major issues in contemporary theology
- develop your understanding of recent developments in one major subdiscipline
- develop an advanced knowledge of at least one major theological subdiscipline
- build your research skills relating to at least one major subdiscipline
- enable you to plan and execute a substantial capstone project or research work.

Communication and Creative Industries

Embrace your originality and make your passion your profession.

Do you dream about the day you get the call to star in the next big Netflix series? Does the thought of working in a bustling public relations agency give you a serious buzz? Maybe you've got plans to make it big on radio or TV as a journalist?

Well, with Charles Sturt University you can. Here, you'll discover all the ins and outs of the industry. You'll learn how to come up with innovative and exciting ways of bringing stories to life, as well as how to put projects into action. You'll also get plenty of hands-on experience through internships and workplace learning, and in our world-class facilities. So when you graduate, there's no knowledge gap. You'll land on your feet in your first role with confidence.

So, are you ready to shape the stories of the world? On second thoughts, perhaps the real question is: is the world ready for you?

Facilities

Award-winning Kajulu communication agency

Want to get the feel for working in an ad agency before you've graduated? Kajulu is where you'll work with real clients on real-world projects – building your experience, portfolio and professional networks.

We're known for being the brightest in the biz. We've taken out the gold in the International Advertising Association Big Ideas competition 13 times in the last 17 years.

Industry-standard performance theatres

Ponton Theatre in Bathurst has tiered seating for 80 audience members, as well as a multichannel lighting system, professional sound mixing system and front-of-house facilities.

The Riverina Playhouse in Wagga Wagga is a 211-seat theatre featuring plenty of professional facilities for you to get hands-on.

The space includes a green room, dressing rooms for up to 16 cast members, a comprehensive lighting grid and modern control surfaces.

Media studios and workshop spaces

These integrated production facilities give you a dedicated space to work on all aspects of your rehearsal and production process under one roof.

Professional television studio

Want to know what it's like to be on the telly? You can in our full-scale professional television studio. You'll have access to THREE professional cameras, an industry-standard control room and a teleprompter (because who hasn't wanted to read from a teleprompter once in their life, right?).

Radio newsrooms

2MCE is our own community radio station based on our Bathurst campus – and it's a place where you learn what it really takes to work in the radio industry. You're given creative control and will create and produce stories, segments and entire programs for broadcast while studying.

Photography studios and dark room

Keen to snap the perfect shot? Hone your photography skills in our industry-standard studios, fully equipped with floor and table cycloramas, lighting units and accessories. You can also develop your skills in analogue and alternative photographic processes in our fully equipped black and white darkroom. Hot tip: you can also hire out professional equipment through our store!

Bachelor of Communication (Advertising)

Charles Sturt's Bachelor of Communication (Advertising) prepares you for a career in a variety of key areas of the constantly evolving and dynamic advertising industry.

Enrolment information	
Campus	Ba
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$23,600
IELTS	6.5, no score lower than 6.0
Study mode	On campus
CRICOS	0101020

Career opportunities

- Client and brand management
- Creative and production roles in advertising and media agencies
- Media/channel planning and purchasing
- Marketing communications officer
- Strategic planning

About the course

This internationally recognised degree equips you with the research, strategic planning, client management, creative, media and channel communication skills to be effective in the competitive world of global advertising. You'll engage with theory and practice, gaining extensive professional experience working in our on-campus student advertising agency and industry-partnered projects.

You'll study areas including the advertising business, advertising creative, strategic planning, channel planning, production, presentation, and client management.

Workplace learning

You will work with real clients on real projects to produce comprehensive advertising campaigns. In your third year you will also undertake an internship of a minimum of four weeks within a major advertising and media agency.

Professional recognition

This course is accredited by the International Advertising Association (IAA) and professionally recognised by the Media Federation of Australia (MFA).

→ study.csu.edu.au/advertising

Bachelor of Communication (Journalism)

Charles Sturt University's Bachelor of Communication (Journalism) focuses on gathering, handling and disseminating information for the mass media, convergent media and other professional communication environments.

Enrolment information	
Campus	Ba
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$23,600
IELTS	6.5, no score lower than 6.0
Study mode	On campus
CRICOS	0101020

Career opportunities

- Communication officer
- Journalist, reporter, writer or news producer for local, national and global online, social media, print, radio and television platforms
- Media adviser

About the course

Using mobile technologies and a multimedia newsroom, this course prepares students for 21st-century journalism. This degree offers you the flexibility to explore your options in journalism and prepares you for careers involving writing and publishing for traditional, online and social media platforms.

You will study subjects in areas including news writing, digital media, media audiences, communication law, media languages and cultures, and news production subjects in radio, television, online and print media.

Workplace learning

You will produce industry-standard news and information programs in Charles Sturt University's online and broadcast newsrooms, including the National Radio News service, and undertake an internship of four weeks in a newsroom or media organisation.

→ study.csu.edu.au/journalism

Bachelor of Communication (Public Relations)

Charles Sturt University's Bachelor of Communication (Public Relations) covers planning and management and the implementation of communication strategies for a variety of communication environments and organisations.

Enrolment information	
Campus	Ba
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$23,600
IELTS	6.5, no score lower than 6.0
Study mode	On campus
CRICOS	0101020

Career opportunities

- Community relations
- Not-for-profit organisations
- Private public relations consultancies
- Public relations, public or corporate affairs departments, in corporate or government organisations

About the course

Public relations practitioners of tomorrow need to be in the social media space; shoot, edit and upload digital footage; and understand what communication strategies and tactics will work in a competitive marketplace.

This course helps you understand the global public relations environment. You'll study subjects including organisations and management; community, government and international communication; social and convergent media; ethics; public relations tactics; event management; and crisis management. There are also subjects that give you practical experience with community groups.

Workplace learning

You'll work in teams on real projects in the region to gain valuable experience prior to your internship. You'll complete an internship of four weeks with a major public relations firm or corporate public affairs office to equip you with practical skills.

Professional recognition

This course is accredited by the Public Relations Institute of Australia (PRIA).

→ study.csu.edu.au/public-relations

"I feel like society's understanding of people with cerebral palsy is very interesting. Not many people have an idea of what people with cerebral palsy can accomplish. It's a physical disability – but we're not just wheelchair bound and at home all day. We can accomplish our dreams."

Environmental Science and Outdoor Recreation

Have you got big love for this wondrous world? You know, the hug-a-tree-like-you-mean-it kind of love? Turn your passion for the environment and the great outdoors into a rewarding career that really makes a difference.

When it comes to having a positive impact on the environment, we believe in taking action. That's why Charles Sturt University is Australia's first and only certified carbon neutral university.

It's why our environmental courses put sustainability, biodiversity, conservation, wildlife and heritage management at the heart of your learning. And it's why our outdoor recreation course gives you the skills to share our unique environment with others while respecting and protecting natural and cultural environments.

Not only will you get opportunities to put your learning into practice in some of Australia's most beautiful environments, when you graduate you could work in some of the world's most incredible locations.

So, where do you want to go?

The world becomes your classroom

Ready to take your learning into the real-world? And when we say real world – we really mean it. As Australia's largest regional university, we're located within some of the country's most beautiful and untouched natural environments. So whether you're an on-campus or an online student, you'll have the chance to get some dust on your boots and dirt on your hands.

Both our Albury-Wodonga and Port Macquarie campuses have access to protected areas, rivers, lakes, hiking and mountain bike trails, caves and cliffs. Albury-Wodonga also has a local alpine area, while Port Macquarie is home to marine and coastal environments.

Studying online? Don't worry, you'll have a chance to become one with nature too. There are opportunities to undertake expeditions to areas such as the Australian Alps, Mungo National Park and the Sturt Desert. You could also complete practical placements anywhere from the Tasmanian wilderness to Australia's far north.

Bachelor of Applied Science (Outdoor Recreation and Ecotourism)

Charles Sturt University's Bachelor of Applied Science (Outdoor Recreation and Ecotourism) provides you with the skills in business, leadership and conservation necessary for a career in outdoor recreation, adventure or ecotourism.

Enrolment information

Campus	AW, PM
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	075526E

Career opportunities

- Outdoor recreation instructor
- Adventure ecotourism operator
- Environmental educator/consultant

About the course

This course has been developed in conjunction with Victorian tourism industry bodies, and is recognised as the leading course of its kind by Ecotourism Australia.

As a graduate you will combine your skills and knowledge in outdoor recreation and education with foundation knowledge of physical, biological and social sciences to design and conduct outdoor activities with people such as the general public and school and community groups.

Workplace learning

This course includes opportunities for a variety of professional development activities including hands-on experiences, field trips, supported overseas expeditions and at least six weeks of full-time work placement in the industry.

There are many opportunities to participate in voluntary and paid field expeditions, including international experiences. Destinations such as Bhutan and Nepal offer the opportunity to study global tourism issues and adventure tourism, and see how other countries provide outdoor experiences.

→ study.csu.edu.au/outdoor-rec-ecotourism

You could work in:

- Environmental science and sustainable development
- Geospatial science
- Heritage management and catchment management
- Outdoor recreation and ecotourism
- Protected area management
- Wildlife and conservation

Bachelor of Environmental Science and Management

Charles Sturt University's Bachelor of Environmental Science and Management provides you with the ability to address a range of complex environmental problems, including those associated with land degradation, loss of biodiversity, climate change or poor water management.

Enrolment information	
Campus	AW, PM
Course duration	4 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus
CRICOS	012025C

Career opportunities

- Environmental scientist
- Ecological researcher
- Environmental consultant

About the course

Charles Sturt's Bachelor of Environmental Science and Management graduates are employed to plan and manage environmental restoration and rehabilitation projects, undertake river and stream management programs, and encourage sustainable agricultural projects. You will have the skills and knowledge in physical, biological and social sciences needed to restore damaged environments and create healthy and resilient ecosystems in organised, critical and imaginative ways.

If you attain a high academic standard you will be invited to undertake the integrated Honours option, which involves an intensive year of field-based study in a specialist area of environmental science.

Workplace learning

With an emphasis on field instruction, this course includes an industry internship in the final year. Extended field opportunities, global perspectives and international field expeditions develop your skills to tackle national and international environmental issues.

→ study.csu.edu.au/enviro-management

Bachelor of Geospatial Science

Graduate Certificate in Fish Conservation and Management

Charles Sturt University's Graduate Certificate in Fish Conservation and Management will put you at the forefront of fish ecology and management, so you can practically and strategically tackle challenges facing freshwater fisheries – in Australia and around the world.

Enrolment information	
Campus	AW
Course duration	3 years FT
Session intake	March(Online only), July
Additional criteria	NA
Indicative yearly fee	\$?
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	0101018

Career opportunities

- Fish ecology
- Fish welfare
- Fisheries management

About the course

Native fish populations are under threat as never before. So how can we manage them best in the face of changing local, national and global conditions?

The Graduate Certificate in Fish Conservation and Management from Charles Sturt University is designed to investigate and answer this very question.

→ study.csu.edu.au/gc-fish-conservation-management

Charles Sturt University is the first Australian university to be officially declared carbon neutral.

Exercise and Sports Sciences

Do you dream of working with elite athletes, want to be your own boss in the fitness industry or be on the ground at high-profile sporting events as a sports journalist? If so, Charles Sturt University has the right course for you.

The Bachelor of Exercise and Sport Science is accredited by Exercise and Sports Science Australia (ESSA), so when you graduate you'll be fully qualified, ready to work anywhere in Australia or overseas.

Few courses in Australia provide a skill set as unique as the Bachelor of Sports Media. Your media and communication skills combined with your expert exercise science knowledge will give your reporting a crucial edge.

Our Diploma of Exercise Studies, meanwhile, is designed to help students from a non-accredited exercise science background meet the ESSA requirements for entry to postgraduate degrees in clinical exercise physiology.

The best bit about an exercise and sports sciences degree? The facilities – hands-down. From well-equipped laboratories to testing facilities (including an exercise physiology and biochemistry lab, neuromuscular testing facility and climate control chamber), you'll learn surrounded by industry-standard equipment that you'll actually be using on the job.

No matter which way you decide to go, with Charles Sturt University you're kicking off a career in the fast-paced exercise and sports sciences industry – and there's no telling how far you'll go.

"Charles Sturt's course has a great reputation. The hands-on nature of the course has made me confident in the various settings my work takes me to – health promotion talks, group education and rehabilitation environments, laboratory settings, clinical work, hospitals and nursing homes."

Anna Coughlan
Bachelor of Exercise and Sport Science

How Darcie Morrison combined her love of sport and study

When you study with Charles Sturt University, your opportunities to excel are endless.

Darcie Morrison found this out while studying the Bachelor of Exercise and Sports Science.

Sport has always been a big part of Darcie's life (and she has the talent to match). So she applied to be part of the Charles Sturt University Elite Athlete Program. This meant she was given plenty of opportunities to combine study and sport – and got a whole lot of support while she was doing it.

"If there's one moment that stood out as a 'pinch me' moment while studying at Charles Sturt University, it would definitely be playing in the Australian Rugby 7s side at the World University Games held in Wales. It was my first overseas trip for sport – and my very first time wearing green and gold. I still get goosebumps when I think about it. It's something I'll never forget."

Bachelor of Exercise and Sport Science (with specialisation)

Charles Sturt University's Bachelor of Exercise and Sport Science prepares you for a career in the exercise and sports industry.

Enrolment information

Campus	Ba, PM
Course duration	3 years FT

Humanities, Social Work and Human Services

Society. The dictionary says it's 'groups of individuals living in a somewhat ordered fashion'. You know there's more to it though, don't you? When you study humanities, social work and human services with Charles Sturt University, you'll work with people from different backgrounds, solve social problems and empower others.

You can work in areas like case management, individual and family work, child protection, aged services, disability and rehabilitation, health, community services and corrections. Or you can choose to work with a particular community group, such as children, older people, domestic violence survivors, or those with drug abuse, mental illness or other social problems.

No matter where you decide to take your career, know this: you're giving back. Not only to the people around you, but to the world around you. And that's something you can feel pretty good about.

You could work in:

- Aged care
- Arts
- Community services
- Health education
- Human services
- Social welfare
- Social work

→ csu.edu.au/humanities-social-work

Bachelor of Arts

A flexible course combining generalist skills and specialist vocational training, the Bachelor of Arts offers a diverse range of majors and minors to provide foundational knowledge for a career in a variety of fields.

Enrolment information	
Campus	Ba, WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$19,600
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	000649C

Career opportunities

You can choose from a diverse pool of subjects, with few course restrictions, so you are able to tailor your study for a multitude of careers.

About the course

As a Bachelor of Arts graduate, you will be valued by employers for your ability to gather information, think critically, assess and interpret evidence, and communicate clearly.

You will complete either:

- two compulsory subjects, two majors and six electives, or
- two compulsory subjects, one major, two minors and six electives.

Majors can be selected from: English, history, philosophy, psychology or sociology.

Minors can be selected from art history, children's literature, economics, English, history, Indigenous studies, Islamic studies, justice studies, language and culture, mathematics, philosophy, psychology, sociology, theology and writing.

Pathways

Graduates often combine their degree with a postgraduate qualification in teaching, journalism, librarianship, management, psychology or criminology, to prepare themselves for specialised employment.

Bachelor of Social Work

Includes integrated Honours

A flexible course combining generalist skills and specialist vocational training, the Bachelor of Arts offers a diverse range of majors and minors to provide foundational knowledge for a career in a variety of fields.

Enrolment information	
Campus	WW
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$25,920
IELTS	7.0, no score lower than 7.0
Study mode	On campus, Online
CRICOS	025159D

Career opportunities

- Case manager
- Health, community services and corrections officer
- Individual and group counsellor
- Community development worker
- Social policy and advocacy officer

About the course

Working at the interface between people and their environments, social workers are found in a wide range of settings, from hospitals, local councils and welfare agencies, to setting up their own businesses. Charles Sturt is a leading provider of social work education in Australia.

The first year of this course focuses on an introduction to sociology, psychology, ethics and human service communication, and fields of practice. In your second year you will put these foundation subjects into practice and study subjects such as law and welfare of children and adolescents. In years three and four, you will undertake work placements and extend your knowledge through in-depth analysis.

Workplace learning

In order to meet the requirements of the Australian Association of Social Workers (AASW), you must complete 1000 hours of supervised field education. This is undertaken in a minimum of two distinct placements in approved agencies.

Professional recognition

This course has full accreditation with the AASW.

→ study.csu.edu.au/social-work

Bachelor of Social Work

TAFE-articulated program

This course is designed for students who have a Diploma of Community Services. It will enable you to develop the skills to work in a wide range of social welfare agencies in areas such as case management, family work and health, community services and corrections.

Enrolment information	
Campus	PM
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$25,920
IELTS	7.0, no score lower than 7.0
Study mode	On campus
CRICOS	025159D

Career opportunities

- Case manager
- Health, community services and corrections officer
- Individual and group counsellor
- Community development worker
- Social policy and advocacy officer

About the course

Working at the interface between people and their environments, social workers are found in a wide range of settings, from hospitals, local councils and welfare agencies, to setting up their own businesses. Charles Sturt is a leading provider of social work education in Australia.

This TAFE-articulated program is designed for graduates of the Diploma of Community Services at TAFE NSW in Port Macquarie. TAFE graduates then enrol in the second year of the Bachelor of Social Work at Charles Sturt and receive credit for the study already completed.

Workplace learning

In order to meet the requirements of the Australian Association of Social Workers (AASW), you must complete 1000 hours of supervised field education. This is undertaken in a minimum of two distinct placements in approved agencies.

Professional recognition

This course has full accreditation with the AASW.

Information Technology, Computing and Mathematics

Technology. It's hard to imagine life without it. In fact, don't even go there, because not only does it already play a huge part in our lives – it's still growing. We've already seen a surge in demand for information technology professionals over the last decade. So are you ready to shape the future?

More than 6000 students of all levels study IT at Charles Sturt University – making us the largest IT education provider in the country. But do you know why we have the biggest IT student community of all Australian unis? It's because we cover every aspect of the industry.

When you study IT with Charles Sturt University, you're getting a hands-on education taught by academics who know the industry inside out. From systems admin, software design and computer science to cybersecurity, cloud computing and management – an IT degree from Charles Sturt University places you in the driver's seat of your future... and the future of work.

You could work in:

- Computer analysis
- Games programming
- Information technology
- Mobile app development
- Network engineering
- Software design and development
- Web development

#1
in Australia
for computing

Bachelor of Computer Science (with specialisation)

This course provides you with the skills to become an expert programmer, with an emphasis on object-oriented programming, games programming and developing apps for mobile devices.

Enrolment information	
Campus	Ba
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$25,600
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	054592B

Career opportunities

- Computer/IT analyst
- Computer programmer / mobile app developer
- Software architect
- Software or systems engineer

About the course

This course includes subjects on programming, app development, computer graphics and virtualisation. You will complete 18 core subjects and either a specialisation or subjects from a restricted list in a topic area of interest.

As a graduate you will possess a broad knowledge of the field of computer science, proficiencies in the use of computers and computational techniques, and the ability to continue your studies in postgraduate research in computer science.

The course also provides you with an excellent foundation for research-based studies at Honours, master's or doctoral level.

Workplace learning

All teaching involves industry-standard hardware, software and methods, and you will participate in relevant industry site visits. In your final-year project, you will investigate, design and implement a substantial computer application to address a practical real-world problem.

Professional recognition

This course is accredited by the Australian Computer Society (ACS) at the professional level.

→ study.csu.edu.au/computer-science

Bachelor of Information Technology (with specialisations)

This course is designed to equip you with the skills and attributes required to be an effective and efficient information technology professional.

Enrolment information	
Campus	AW, WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$29,696
Fee with regional scholarship	\$26,921
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	012006F

Career opportunities

- Network engineer
- Programmer
- Systems administrator
- Systems or business analyst

About the course

The employment rate for graduates of this course is very high. Career opportunities may be in industry, commerce, small business, financial enterprises, public utilities, government, education and more. You may be involved in ensuring information is available, or work developing and maintaining frameworks and infrastructure.

Specialisations include business analysis, network engineering, software design or systems administration.

Workplace learning

You'll use industry-standard hardware, software, and techniques, and relevant industry site visits. In your final-year project, you'll design a substantial computer application to address a practical real-world problem.

Professional recognition

This course is accredited at the professional level by the Australian Computer Society (ACS). Charles Sturt University is a regional CISCO networking academy.

→ study.csu.edu.au/it

Bachelor of Science – Mathematics major

Charles Sturt University's Bachelor of Science is a general science course in which you can major in mathematics.

Enrolment information	
Campus	WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	025519G

Career opportunities

- Finance and insurance risk analyst
- Mathematics teacher
- Spatial data modeller
- Systems modeller

About the course

This course comprises a set of core subjects that are common to all majors. If you focus on mathematics you will major in subjects such as linear algebra, mathematical modelling and topics in calculus. You can minor in subjects from other areas such as biology, chemistry and physics.

Employment opportunities for mathematics graduates include forecasting and risk analysis in the finance and insurance industries, modelling of environmental and industrial systems, optimisation of transport industries, urban and regional planning, and data analysis.

Workplace learning

To ensure you are experienced using workplace equipment and techniques, our facilities include computer-aided mathematics software packages to assist students.

→ study.csu.edu.au/science

Master of Information Technology (with specialisations) – 12 subjects

Graduates of this course will have the skills to become practising IT professionals. You will develop your expertise in cutting-edge areas of the industry.

Enrolment information	
Campus	PM
Course duration	2 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$24,9112
Fee with regional scholarship	\$20,736
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	081461M

About the course

This course is for those who work in the industry but have no formal qualification, and those with tertiary qualifications in another discipline who wish to gain an IT qualification. You can undertake a specialisation such as those below plus a capstone subject in an area of interest.

- **Computer networking**
Explore topics such as virtualisation, cloud computing and network security.
- **Network security**
Learn about confidentiality, integrity and availability; network defences; cryptography, and digital forensics.
- **Software design and development**
Develop software and applications. Learn computer programming in advanced languages such as Java.
- **Cyber security**
Study contemporary topics in cyber security, such as digital forensics, dark web and cloud security.
- **Data science**
Learn about data pre-processing, knowledge discovery, future prediction and data mining.

Professional recognition

This course is accredited at the Professional level by the Australian Computer Society (ACS) until 2022, provided at least one specialisation is completed.

→ study.csu.edu.au/master-it-12

Medical Science and Dentistry

At Charles Sturt University, we've earned a reputation for producing some of the best medical science and dentistry grads in Australia. They're innovative, highly skilled and committed. Are you ready to be one of them?

Our courses combine essential knowledge with cutting-edge techniques, and all taught in our modern practical learning facilities.

We also provide public dental and medical services across many of our campuses. So while you're studying, you'll get the chance to work with real patients, performing real procedures. On top of that, you'll be getting the inside scoop on how medical businesses are actually run. So when you land your dream job after graduation, you're already 100 per cent comfortable working in clinical settings.

It's time to focus on your future. A future of countless possibilities and exciting opportunities. Let's do it.

You could work in:

- Clinical science
- Dentistry
- Medical laboratory science
- Medical radiation science
- Medical ultrasound
- Oral health
- Pathology

#1

in NSW

for dentistry grads who get jobs'

Smile.

90% of our dentistry grads find full time work within 4 months of graduating.

*QS World University Guide 2019/20

→ csu.edu.au/medical-science

Facilities

Dental and Oral Health Clinics

Located on the Albury-Wodonga, Bathurst, Dubbo, Orange and Wagga campuses, these clinics are where you'll put theory into practice throughout your course. The dental and oral health clinics are your essential hands-on workspaces, where you'll transition from simulated learning to real-world clinical practice.

The best bit? You'll start seeing real patients from your second year of study!

Dental Simulation Clinic

Hone your clinical skills in our simulation clinic using our state-of-the-art dental equipment – just like the ones they use in industry. So when we say simulation, we mean it. It will feel like you're treating a real patient, so you'll be developing your precise motor skills as you learn.

Human Anatomy Facilities

Get to grips (literally) with anatomical simulations of the skeletal, muscular, vascular and nervous systems of the human body.

Medical Radiation Science Laboratories

Gain experience using the very same equipment that you'll find when you step into your next job. From digital radiography systems and gamma radiation cameras, to 3D simulation software, get practical knowledge to illuminate your learning.

National Life and Sciences Hub (NaLSH)

Conduct diagnostic tests in our dedicated anatomy and physiology labs.

Dental Technology Laboratory

Learn all about dental prosthetics and dental material science in our dental technology laboratory. You'll construct appliances like dentures, occlusal splints and mouthguards for your patients – and reap the rewards of making a real difference in the lives of others.

Bachelor of Clinical Science

Charles Sturt University's Bachelor of Clinical Science has been specifically designed to meet the expectations of graduate-entry dentistry, medicine and health programs across Australia.

Enrolment information

Campus	Or
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus
CRICOS	068977C

Career opportunities

- Clinical scientist
- Medical researcher

About the course

The objectives of this course are to gain:

- the appropriate knowledge base and learning skills to facilitate passage into graduate-entry dentistry, medicine or other health sciences
- an understanding of what might be the cause and treatment of disease, as well as the social and community factors that contribute to health status and the way health professionals can interact to improve patient care
- a platform of understanding for employment in a variety of public health, research and health technology occupations.

You will complete foundation subjects in medical science, humanities, Indigenous awareness, ethical practice and rural-oriented clinical research and practice.

There are varied career opportunities if you do not pursue graduate programs, including:

- medical/dental or scientific research
- employment in the public health system (epidemiology, health system planning, health screening, health promotion, etc.).

Bachelor of Dental Science

Charles Sturt University's Bachelor of Dental Science has been developed in close association with industry to prepare graduates for rewarding careers as dental practitioners.

Enrolment information	
Campus	Or
Course duration	5 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$60,800
IELTS	7.0, no score lower than 6.5
Study mode	On campus
CRICOS	074610F

Career opportunities

- Dental educator
- Dentist

About the course

The Australian Dental Council, the Australian Dental Association, local dentists, oral health practitioners and senior consultants all collaborated to develop the Bachelor of Dental Science at Charles Sturt University, to help address the well-documented undersupply of dental practitioners in Australia.

Dentistry provides a rewarding and diverse career path and is a health profession concerned with caring for people of all ages. You could work in general dentistry practice, specialty dentistry practice, public sector dental health, hospital dental clinics, international healthcare, education, research, or industry.

Workplace learning

You will undertake intense clinical practice sessions using simulation equipment in state-of-the-art, purpose-built facilities. These will give you the opportunity to engage in clinical practice at a variety of sites (university and community, rural and metropolitan) to gain optimal professional experience.

Professional recognition

Graduates are eligible for registration as a dental practitioner in all Australian states and territories.

→ study.csu.edu.au/dental

Bachelor of Medical Radiation Science (with specialisations)

Charles Sturt University's Bachelor of Medical Radiation Science (with specialisations) is designed to anticipate industry demands and is in a unique position to offer you a competitive advantage in the employment market.

Enrolment information	
Campus	PM, WW
Course duration	4 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$31,200
IELTS	6.5, no score lower than 6.0
Study mode	On campus
CRICOS	071461E

Career opportunities

- Medical imaging practitioner
- Nuclear medical scientist
- Nuclear medical technologist
- Radiation therapist
- Diagnostic Radiographer

About the course

This course provides the theoretical knowledge and professional skills necessary to practice as a qualified medical radiation scientist. You will undertake common core subjects in the first year of your study. From your second year onwards you will choose a specialisation in medical imaging, nuclear medicine or radiation therapy. (The Radiation Therapy specialisation is only offered on the Wagga Wagga campus.)

A professional development year is included in the fourth year of the course, so when you graduate, you can apply immediately for registration to practise.

Graduates may find employment in metropolitan or regional areas in the public hospital system or private practices in Australia and overseas.

Workplace learning

Over the four years of study, you will undertake 58 weeks of clinical placement, including a fourth-year residency.

Professional recognition

Graduates are eligible to register with the Medical Radiation Practice Board of Australia (MRPBA).

→ study.csu.edu.au/med-radiation

Bachelor of Medical Science (with specialisations)

Charles Sturt University's Bachelor of Medical Science (with specialisations) is an internationally recognised and accredited course with a history extending more than 20 years.

Enrolment information	
Campus	WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	029251J

Career opportunities

- Biotechnology researcher
- Clinical physiologist
- Medical scientist
- Medical researcher

About the course

This course will provide you with the skills required to gain employment as a scientific officer in a range of clinical and research settings. These include pathology laboratories and neurophysiology, respiratory and cardiac departments.

Specialisations are available in biotechnology, clinical physiology and pathology. A generic stream is also available, allowing you to gain a wider knowledge across specialisations. This will be especially attractive if you are seeking a broad background as an option for entry into research programs.

Medical scientists are an integral part of the total healthcare team within hospitals, liaising with other health professionals and patients. They also form the key elements of research teams examining the efficacy of new treatments or developing new medicines and healthcare products.

Workplace learning

You will complete extensive practical work, including up to six weeks of professional training.

Professional recognition

The pathology specialisation is accredited by the Australian Institute of Medical Scientists (AIMS) and graduates are eligible for membership of this organisation.

→ study.csu.edu.au/medical

Bachelor of Oral Health (Therapy and Hygiene)

Charles Sturt University's Bachelor of Oral Health (Therapy and Hygiene) has been developed in close association with industry to prepare you for a rewarding career making a difference in people's lives.

Enrolment information	
Campus	Hg, WW
Course duration	3 years FT
Session intake	March
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	7.0, no score lower than 6.5
Study mode	On campus
CRICOS	077426D

Career opportunities

- Clinical tutor/academic
- Dental hygienist or dental therapist
- Health promotion officer or researcher

About the course

During year one you'll focus on core biomedical and oral sciences. In years two and three, the focus is on understanding the medical, dental, social and community context of dental hygiene with clinical practice.

If you study on campus at Holmesglen during the first two years, you'll undertake placements at the Charles Sturt campus clinic in Wagga Wagga. During the third year, all students are based at the Wagga Wagga campus and undertake placements in clinics both on our campuses and throughout regional Australia.

Workplace learning

You'll undertake intense clinical practice sessions using simulation equipment in purpose-built facilities. There will also be opportunities for clinical practice at a variety of off-campus sites to gain optimal professional experience.

Professional recognition

This course is accredited by the Australian Dental Council and graduates are eligible for registration with the Australian Health Practitioner Regulation Agency (AHPRA). Graduates are able to provide hygiene treatment to individuals of all ages and dental therapy care to children and young adults (up to age 26). Graduates are also eligible for registration in New Zealand.

→ study.csu.edu.au/oral-health

Nursing, Midwifery and Indigenous Health

Nurses are the backbone of our healthcare industry. And at Charles Sturt University, we're known for our caring and professional nursing grads.

Employers consider our nursing program one of the best in the country (maybe because we've been around for almost 50 years) – and we take great pride in educating the carers of tomorrow.

The best bit? You'll be getting hands-on, helping real people in the community, from your first year. Work placements. Practical learning. Industry connections. These experiences will help you learn everything you need to know, giving you confidence and setting you up for success in the workplace.

And when you study with Charles Sturt, you'll get a nationally accredited degree and become qualified to work anywhere in Australia (or around the world). It's a smart move. Because you'll be in demand, earning a decent salary and actively creating a world worth living in.

Become a registered nurse. Become the heart of healthcare.

Empowering Indigenous women to follow their dreams

Kristy-Lee Williams is a proud Wiradjuri woman and the mother of three young children. After the birth of her first child, she was touched by the care and support she received from her midwives – and she decided to apply to Charles Sturt University.

"I was amazed by the registered nurses and midwives as they were just so beautiful, caring and supportive. I thought to myself: being a midwife would have to be the most amazing and rewarding career."

And how is Kristy-Lee making a difference now she's graduated?

"I would love to make a difference to improving and closing the gap in Indigenous health, as well as provide support, be an advocate and give culturally appropriate care to my people. I hope that I can inspire and encourage other women with children and, in particular, Indigenous women to follow their dreams and goals in life."

"I would love to make a difference to improving and closing the gap in Indigenous health, as well as provide support, be an advocate and give culturally appropriate care to my people."

Kristy-Lee Williams
Bachelor of Nursing

You could work in:

- Aged care
- Community health
- Critical care and emergency
- Disability and rehabilitation
- Health services management
- Indigenous health
- Mental health
- Midwifery
- Nursing
- Ambulatory care
- Preoperative services and surgery
- Private and public health care

Psychology

Do you have an inquiring mind? Are you patient and perceptive? Can you look at people and their problems through a neutral, but empathic lens? Well, psychology may be the right career for you.

With Charles Sturt University, you'll explore the potential of the human mind. You'll study how people learn, think, perceive and interact with the world around them. You'll examine the experiences of others in their past and their present. And help them build a brighter future.

So with Charles Sturt University, you can set yourself up for a fulfilling life. You'll be working in an interesting field and you'll be helping others. You'll hit that job-life sweet spot.

There are plenty of avenues for you to walk down with an undergrad psychology degree. Think counselling or human services, as well as marketing and human resources. Your options are endless. And if you're truly passionate about becoming a registered psychologist, you can take your learning further and get accredited with postgrad studies.

Explore human behaviour while gaining an understanding of people's wellbeing with the Bachelor of Psychology. This program is accredited by the Australian Psychology Accreditation Council as a four year sequence of study in psychology. Further study and training will be required to pursue your career as a psychologist.

Bachelor of Social Science (Psychology)

The Bachelor of Social Science (Psychology) offers fascinating insights into human nature relevant to every community, career and workplace. This program is accredited by the Australian Psychology Accreditation Council (APAC) as a three year sequence of study in psychology. Further study and training will be required to pursue your career as a psychologist in Australia.

Enrolment information

Campus	PM, WW
Course duration	3 years FT
Session intake	March, July

Career opportunities

- Counsellor
- Human services worker
- Research assistant
- Social researcher

About the course

The Bachelor of Social Science (Psychology) is a platform to further study in the field of psychology.

During the course, you will complete 14 psychology coursework subjects. In addition, you will take three electives, once sociology subject and choose a six-subject minor from a related discipline. You will have the opportunity to choose additional psychology subjects as some or all of the three electives.

Professional recognition

Successful completion of this course provides you with an APAC accredited 3 year qualification of study in Psychology in Australia.

Pathways

If you meet certain criteria, you may be eligible to apply for admission into an APAC accredited 4th year (& then 5th year) psychology program.

→ study.csu.edu.au/social-science-psych

You could work in:

- Counselling
- Human resources
- Marketing
- Parole services
- Rehabilitation and social services

→ csu.edu.au/psych

Science

When you look around you, what do you see? Do you see the big issues facing the world – and ways to fix them? Medical breakthroughs, space exploration, food production, clean energy, robotics – the solutions we need are all rooted in science.

Over the next 10 years, 75 per cent of jobs in the fastest-growing industries will need skills in science, technology, engineering, mathematics and medicine (otherwise known as STEMM). So when it comes to job security into the future, a science degree is a smart choice.

And when it comes to picking a career path, your options are endless. You can major in analytical chemistry, conservation biology, mathematics, microbiology and immunology, physics, plant science or spatial science.

The other drawcard to a science degree? The facilities and workplace learning opportunities we offer are top notch. You'll learn at the National Life and Sciences Hub (NaLSH), our purpose-built, integrated science hub, and have the chance to work in on-campus industry labs, like the Department of Primary Industries and Environmental and Analytical Laboratories.

Do you want to be part of the change? Change your life. Change the world around you. Change the course of history.

How Anthea Marriott plans to take the STEMM world by storm

Anthea Marriott has always loved numbers – so it made sense for her to study an undergraduate accounting degree. But realised that a mathematics degree could provide more career options, so she then studied the Bachelor of Science, majoring in mathematics and minoring in statistics.

“I’m really lucky to have had the opportunity to study two degrees. I’ve learned so many important concepts from both that I use every day in my career.”

Anthea is currently working for Microsoft as a business program manager intern and recently won a national science award.

“Only 100 students from across Australia were named as a Future Leader and 10 students were finalists for the Quantum Data Science Award – so to win is a huge achievement. I’m the only student from Charles Sturt University to win an award in this competition (so far); that was another big achievement for me and I feel very proud to have represented my university.”

“I have lots of goals. I want to be a strong advocate for people with disabilities entering the workforce or university. I want to have an impact on closing the gender pay gap, and encouraging more women into a career in STEMM.”

**Anthea Marriot
Bachelor of Science**

- You could work in:
- Analytical chemistry
 - Astrophysics
 - Clinical research
 - Conservation
 - Data analysis
 - Food technology
 - Forensics
 - Market research
 - Medical research
 - Scientific communication

Bachelor of Science

Charles Sturt University's Bachelor of Science is a vocationally oriented course that produces graduates with a sound knowledge base in natural and physical science and specialised studies in a number of majors.

Enrolment information	
Campus	WW
Course duration	3 years FT
Session intake	March, July
Additional criteria	NA
Indicative yearly fee	\$30,400
IELTS	6.0, no score lower than 5.5
Study mode	On campus, Online
CRICOS	010599C

Career opportunities

Graduates are employed in a range of professions. The focus of the course is to provide you with a broad understanding of scientific principles and a deep understanding of at least one scientific discipline.

About the course

This course produces highly employable graduates with an appreciation of the interdisciplinary nature of much of modern scientific investigation.

You can elect to study a major in analytical chemistry, conservation biology, mathematics, microbiology and immunology, physics, plant science or spatial science.

To ensure you are experienced using workplace equipment and techniques, our facilities include:

- state-of-the-art laboratories, which include mass spectrometry and chromatography
- GIS / remote sensing facilities with two airborne digital imaging systems and GPS equipment
- modern PC2 glasshouses for plant biotechnology experiments
- fully equipped laboratories for molecular analysis
- computer-aided mathematical software packages.

Professional recognition

Graduates of the analytical chemistry major are eligible for membership of the Royal Australian Chemical Institute.

Teaching and Education

Educating the future minds of tomorrow. It's a big responsibility – but it's one of the most rewarding careers out there. From helping a student or child get to that 'light bulb' moment, to supporting a student through a personal issue, a teaching career is filled with special moments.

Whether you want to teach early childhood, primary, secondary or adult and vocational education, a degree from Charles Sturt University means that you'll graduate confident, skilled and excited to inspire others.

You'll go on lots of professional workplace learning placements. So by the time you've graduated, you'll have spent plenty of time in real classrooms, delivering real lessons. You'll be a pro. And you'll be 100 per cent ready to help your students reach their full potential.

You could work in:

- Education administration
- Industry training
- Policy research
- Teaching
- Tutoring

Bachelor of Education (Birth to Five Years) (delivered by a partner institution)

Charles Sturt University's Bachelor of Education (Birth to Five Years) recognises the knowledge, skills and abilities that you bring from previous studies and prepares you to be an effective future practitioner in the birth-to-five-years education sector.

Enrolment information	
Campus	CN
Course duration	2 years FT
Session intake	March
Additional criteria	See website for details
Indicative yearly fee	TBC
IELTS	Academic IELTS (or equivalent) with an overall score of 7.5 (with no score below 7 in reading and writing, and a score of no less than 8 in speaking and listening)
Study mode	On campus
CRICOS	O85669G

Career opportunities

- Child development educator
- Early childhood teacher
- Program leader
- Service director or centre manager

About the course

Please note that you must have a minimum of a Diploma of Early Childhood Education and Care (or equivalent) from a recognised institution. IELTS requirements are waived if this was completed in English in Australia.

You will develop an understanding of the importance of the early years and the educator's role in children's lives through a balance of practical skills and theory.

You will learn about a range of approaches used in early childhood education, relating to curriculums, pedagogies, content and approaches. You will also develop an understanding of research in early childhood education.

Workplace learning

The course includes two compulsory professional experience placements.

Professional recognition

This course is approved by the Australian Children's Education and Care Quality Authority (ACECQA).

→ study.csu.edu.au/birth-five

Bachelor of Education (Early Childhood and Primary)

Charles Sturt University's Bachelor of Education (Early Childhood and Primary) prepares you for a career teaching in a wide range of educational settings with children from birth to 12 years.

Enrolment information	
Campus	AW, Ba, WW
Course duration	4 years FT
Session intake	March
Additional criteria	See website for details
Indicative yearly fee	\$22,720
IELTS	Academic IELTS (or equivalent) with an overall score of 7.5 (with no score below 7 in reading and writing, and a score of no less than 8 in speaking and listening)
Study mode	On campus
CRICOS	O17967E

Career opportunities

- Early childhood teacher
- Primary school teacher

About the course

This program equips you with the professional skills required to foster positive development and learning in children, whether they are in early childhood settings or primary schools.

The course is founded on the belief that you should be committed to social justice in all settings, continue to develop as scholars and teachers, be a practitioner who reflects on your own practice and act as a strong advocate for children and their families.

Employment possibilities include teaching in government and non-government schools, community-based preschool settings, long day care centres, mobile preschools and work-based care.

Workplace learning

Professional experience in early childhood and primary settings is a vital component of the program.

Professional recognition

This course is accredited by the NSW Education Standards Authority (NESA) and the Australian Children's Education and Care Quality Authority (ACECQA).

→ study.csu.edu.au/early-childhood

Study online

Charles Sturt University is Australia's most experienced provider of online education. Every year, more than 25,000 students around the world study undergraduate and postgraduate programs or single subjects through our world-class online education program. Our students can choose to study from anywhere in the world by undertaking a flexible, professionally recognised Charles Sturt degree online.

Charles Sturt University offers internationally recognised qualifications through an online learning platform that gives our online students an experience that is as academically rigorous and as interactive as on-campus study, with excellent teacher-student and peer interaction. Another important advantage of Charles Sturt's flexibility is that generous credit is awarded for previous study.

Charles Sturt University degree's offered online include:

Agricultural and Wine Sciences

Associate Degree in Farm Production
Bachelor of Agricultural Business Management
Bachelor of Agricultural Science
Bachelor of Agriculture
Bachelor of Equine Science (with specialisation)
Bachelor of Horticulture
Bachelor of Viticulture

Bachelor of Wine Business
Bachelor of Wine Science
Graduate Certificate in Agricultural Business Management
Graduate Certificate in Sustainable Agriculture
Graduate Diploma of Sustainable Agriculture
Graduate Diploma of Viticulture and Oenology
Master of Agricultural Business Management
Master of Sustainable Agriculture
Master of Viticulture and Oenology

Allied Health and Pharmacy

Bachelor of Health and Rehabilitation Science
Bachelor of Health Science (Food and Nutrition)
Bachelor of Paramedicine
Graduate Certificate in Applied Mindfulness
Graduate Certificate in Health Services Management
Graduate Certificate in Leading Change (Health Services)
Graduate Diploma of Health Services Management
Master of Health Services Management

Animal and Veterinary Sciences

Bachelor of Equine Science (with specialisations)
Graduate Certificate in Captive Vertebrate Management
Graduate Certificate in Ornithology
Graduate Diploma of Ornithology
Master of Animal Science

Business

Bachelor of Accounting
Bachelor of Business (Finance)
Bachelor of Business (Human Resource Management)
Bachelor of Business (Insurance)
Bachelor of Business (Management)
Bachelor of Business (Marketing)
Bachelor of Business Studies
Graduate Certificate in Applied Digital Marketing
Graduate Certificate in Business Administration (Computing)
Graduate Certificate in Commerce
Graduate Certificate in Finance
Graduate Certificate in Financial Planning
Graduate Certificate in Human Resource Management
Graduate Certificate in Marketing
Graduate Certificate in Organisational Change

Graduate Certificate in Organisational Coaching and Leadership
Graduate Certificate in Professional Accounting
Graduate Certificate in Project Management
Graduate Certificate in Social and Organisational Leadership
Graduate Diploma of Accounting
Graduate Diploma of Commerce
Graduate Diploma of Dispute Resolution
Graduate Diploma of Finance
Graduate Diploma of Financial Planning
Graduate Diploma of Organisational Coaching and Leadership
Graduate Diploma of Project Management
Master of Applied Digital Marketing
Master of Applied Finance
Master of Business Administration (Computing) (with specialisations)
Master of Business Administration (Law Enforcement and Security)
Master of Business Administration (with specialisations)
Master of Commerce (with specialisations)
Master of Human Resource Management
Master of Marketing
Master of Professional Accounting
Master of Project Management
Master of Social and Organisational Leadership (with specialisations)

Christian Theology and Ministry

Bachelor of Theology
Graduate Certificate in Theological Studies
Graduate Diploma of Ageing and Pastoral Studies
Graduate Diploma of Theological Studies
Master of Ageing and Pastoral Studies
Master of Arts (Theological Studies)
Master of Ministry
Master of Theology

Communication and Creative Industries

Bachelor of Communication (Advertising) / Bachelor of Business (Marketing)
Bachelor of Communication (Digital Media Production)
Bachelor of Communication (Public Relations) / Bachelor of Business Studies
Bachelor of Creative Industries (Design and Visual Arts / Interdisciplinary Innovation)
Bachelor of Creative Industries (Design and Visual Arts)
Bachelor of Creative Industries (Interdisciplinary Innovation)
Graduate Certificate in Communication
Master of Communication (with specialisations)

Environmental Science and Outdoor Recreation

Bachelor of Applied Science (Outdoor Recreation and Ecotourism)
Bachelor of Applied Science (Parks Recreation and Heritage)
Bachelor of Environmental Science (with specialisations)
Bachelor of Geospatial Science
Graduate Certificate in Fish Conservation and Management
Master of Environmental Management (with specialisations)
Master of GIS and Remote Sensing

Humanities, Social Work and Human Services

Bachelor of Arts
Bachelor of Human Services (with specialisations)
Bachelor of Liberal Studies (Arts)
Bachelor of Social Work
Graduate Certificate in Gerontology
Graduate Certificate in Human Services
Graduate Certificate in Leadership in Human Services (with specialisations)
Master of Advanced Social Work Practice
Master of Gerontology
Master of Leadership in Human Services (with specialisations)
Master of Social Work (Professional Qualifying)

Information and Library Studies

Bachelor of Information Studies
Graduate Certificate in Audiovisual Archiving
Graduate Certificate in Data Management
Graduate Certificate in Information Studies
Master of Information Studies

Information Technology, Computing and Mathematics

Bachelor of Computer Science (with specialisations)
Bachelor of Information Technology (with specialisations)
Graduate Certificate in Applied Data Science
Graduate Certificate in Applied Statistics
Graduate Certificate in Cloud Computing and Virtualisation
Graduate Certificate in Cyber Security
Graduate Certificate in Cyber Studies and Investigations
Graduate Certificate in Industry Computing
Graduate Certificate in Information Systems Security
Graduate Certificate in Information Technology
Graduate Certificate in Mathematics
Graduate Certificate in Networking and Systems Administration
Graduate Diploma of Information Technology
Graduate Diploma of Mathematics
Master of Cloud Computing and Virtualisation
Master of Cyber Security

Master of Cyber Studies and Investigations
Master of Information Systems Security
Master of Information Technology (with specialisations)
Master of Networking and Systems Administration

Islamic and Arabic Studies

Bachelor of Islamic Studies
Graduate Certificate in Classical Arabic
Graduate Certificate in Contemporary Islamic Studies
Graduate Certificate in Islamic Studies
Graduate Diploma of Classical Arabic
Graduate Diploma of Contemporary Islamic Studies
Graduate Diploma of Islamic Studies
Master of Classical Arabic
Master of Contemporary Islamic Studies
Master of Islamic Studies

Medical Science and Dentistry

Bachelor of Medical Science (with specialisation)
Master of Medical Radiation Science (with specialisations)
Master of Medical Science (with specialisation)

Nursing, Midwifery and Indigenous Health

Master of Nursing (with specialisations)

Policing, Law, Security, Customs and Emergency Management

Bachelor of Border Management
Bachelor of Border Management (Customs)
Bachelor of Criminal Justice
Bachelor of Emergency Management
Bachelor of Policing
Bachelor of Policing (Investigations)
Bachelor of Public Safety and Security
Executive Masters in International Police Leadership
Graduate Certificate in Anti-Money Laundering and Counter Terrorist Financing
Graduate Certificate in Customs Administration
Graduate Certificate in Dispute Resolution
Graduate Certificate in Ethics and Legal Studies

Master of Intelligence Analysis
Master of Investigations
Master of Leadership and Management (Policing and Security)
Master of Terrorism and Security Studies

Psychology

Bachelor of Psychology
Bachelor of Social Science (Psychology)
Graduate Diploma of Psychology
Postgraduate Diploma of Psychology

Science

Bachelor of General Studies (Science)
Bachelor of Science

Teaching and Education

Bachelor of Education (Birth to 5 Years)
Bachelor of Educational Studies
Bachelor of Teaching (Primary with specialisations)
Bachelor of Teaching (Secondary with specialisations)
Graduate Certificate in Education (with specialisations)
Graduate Certificate in Inclusive Education
Graduate Certificate in Learning and Teaching in Higher Education
Graduate Certificate in TESOL
Graduate Diploma of Adult Language, Literacy and Numeracy
Master of Education (with specialisations)
Master of Inclusive Education ((with specialisations)
Master of International Education (with specialisations)
Master of Teaching (Primary with specialisations)
Master of Teaching (Secondary with specialisations)
Master of Teaching English to Speakers of Other Languages

Charles Sturt University can help you get the degree you always wanted, without having to leave home.

→ study.csu.edu.au

Admission requirements

Academic qualifications

Undergraduate

Applicants who have completed secondary school outside Australia will require a competitive pass in a recognised matriculation examination equivalent to an Australian Year 12. You should submit a certified copy of your highest level of secondary school results to support your application for admission. The programs and scores currently recognised for entry are available on pages 84–86. If your qualification is not listed, we encourage you to apply and we will assess your application individually.

Applicants who have completed secondary school in Australia require one of: Australian Higher School Certificate (Year 12) with an ATAR (or interstate equivalent) appropriate to the course, Tertiary Preparation Certificate (TAFE) with satisfactory completion or the International Baccalaureate Diploma.

Postgraduate

For admission at postgraduate level, you will be required to hold a recognised bachelor's degree equivalent to an Australian bachelor's degree or qualifications deemed to be equivalent.

Higher Degrees by Research

For admission to postgraduate research programs, you will be required to hold a recognised bachelor's degree equivalent to an Australian bachelor's degree or qualifications deemed to be equivalent. Your academic performance at the bachelor's level will be assessed as part of the admissions process. Applicants are also required to submit a 300-word research proposal outlining the intended area of research. For more information about our research programs, see page 25.

Advanced standing and credit

At Charles Sturt, we provide a number of admission pathways that enable you to study with us. These pathways include alliances and networks with a range of education providers around the world to recognise programs for entry and credit. If we don't have an existing credit agreement for your qualification, please apply directly to us, include your previous academic transcripts, and your credit for prior study will be assessed individually.

To find out about formal credit package arrangements, visit → study.csu.edu.au/rpl

Additional admission requirements

Some courses have additional admission requirements, which may include interviews or supplementary application forms. These are detailed on the online course brochure for each course.

→ study.csu.edu.au/courses
→ study.csu.edu.au/contact-us

Competitive entry courses

Competitive entry courses have early application deadlines. These include undergraduate degrees in dental science, physiotherapy and veterinary science. They may involve longer turnaround times due to the assessment of additional criteria. If applicants are deemed to be equally eligible for admission and limited places are available, offers of admission will be made in order of application received date. Please check the course web page for specific information.

Internet access

As the online environment is integrated into all aspects of student life, the university expects that all students will have ongoing access to an internet-connected computer capable of communicating with Charles Sturt University's online systems.

English proficiency requirements

Applicants who have completed formal studies at higher secondary or tertiary level in American Samoa, Australia, Botswana, Canada, Fiji, Ghana, Guyana, Ireland, Jamaica, Kenya, Lesotho, Liberia, New Zealand, Nigeria, Papua New Guinea, Singapore, Solomon Islands, South Africa, Tonga, Trinidad and Tobago, United Kingdom (inc. Northern Ireland), United States of America, Zambia or Zimbabwe will be considered to have met the English proficiency requirements for admission. All other applicants must have one of:

- an Academic IELTS (International English Language Testing System) overall score of at least 6.0 with no score below 5.5
- a TOEFL (Test of English as a Foreign Language) internet-based score of 80 and writing score of 25
- Pearson Test of English (PTE) Academic score of 54 with a minimum of 46 in all communicative skills.

If you have taken an English language proficiency test not listed above, you may still meet the English proficiency requirements; however, you will need to check the Charles Sturt University ELP Concordance Table at → study.csu.edu.au/international/apply/course-entry/english-language-requirements

Or contact Charles Sturt University Admissions for confirmation at admissions@csu.edu.au

English test results must not be more than two years old.

Note: The following courses have a higher English proficiency requirement.

- Bachelor of Communication (with specialisations)
- Bachelor of Dental Science
- Bachelor of Education (Birth to Five Years)
- Bachelor of Education (Early Childhood and Primary)*
- Bachelor of Health and Rehabilitation Science
- Bachelor of Medical Radiation Science

- Bachelor of Nursing
- Bachelor of Occupational Therapy
- Bachelor of Oral Health (Therapy and Hygiene)
- Bachelor of Paramedicine
- Bachelor of Pharmacy
- Bachelor of Physiotherapy
- Bachelor of Podiatric Medicine
- Bachelor of Social Work
- Bachelor of Speech and Language Pathology
- Bachelor of Veterinary Biology / Bachelor of Veterinary Science
- Master of Professional Accounting
- Master of Medical Radiation Science

For specific requirements, visit:

→ study.csu.edu.au/international/apply/course-entry/english-language-requirements

Higher Degrees by Research require one of the following:

- an Academic IELTS with a minimum overall score of 6.5, with no score below 6.0 in each of the individual skill areas
- a TOEFL test result with a minimum overall score of 577 (Computerised 233) with a score of at least 5.0 in the Test for Written English
- an internet-based TOEFL score of 90 with a writing score of 24.

For more information, visit

→ study.csu.edu.au/international/apply/course-entry/english-language-requirements

English language studies

Students who do not meet the university's English language proficiency requirements may wish to undertake their English language studies in Australia. Please check online to confirm which English language courses are approved for admission into Charles Sturt University.

Charles Sturt University recognises the following English language programs for direct entry into courses with an IELTS 6.0 requirement:

- Ability
- Canberra Institute of Technology
- Chisholm Institute of TAFE
- Embassy English for Academic Purposes Program
- International House
- Macquarie English
- Navitas
- Strathfield College
- Sydney College of English
- UTS Insearch.

For more information, visit

→ study.csu.edu.au/international/apply/course-entry/english-language-requirements

To be eligible for admission to a Charles Sturt University degree, you must satisfy both the academic and English proficiency requirements.

For on-campus study, you must also satisfy the Genuine Temporary Entrant (GTE) requirements of the Australian Government.

In line with the Admissions Policy, applicants intending to study in Australia on a student visa must be old enough that they will be at least 18 years old by their course start-date.

The admissions policy is available on the Charles Sturt University website

→ about.csu.edu.au/our-university/publications-policy/policy

How to apply

1. Apply online or via an international agent

You can apply online at
→ study.csu.edu.au/apply

(For some countries Charles Sturt University requires you to apply via an education agent.)

Attach the following documents:

- certified copies*, together with English translations, of your higher secondary school results and/or your academic transcripts for each year of tertiary study
- certified* copy of your Certificate of Completion for all tertiary study
- certified* copy of any other official certificates, such as short courses and diplomas
- evidence of your English language proficiency results, for example IELTS or TOEFL
- certified copies* of your passport.

* For details about who is authorised to certify copies of your documents, visit
→ study.csu.edu.au/apply/process

On each page of the document the authorised person must write 'This is a true copy of the original document sighted by me'. On the first page they must sign, and print the following details: name, address, business hours telephone number, profession/occupation or organisation, and the date verified. They must include the official stamp or seal of the verifier's organisation on the copy if the organisation has such a stamp.

In addition to the above, if the verifier is a Justice of the Peace, they must also print their registration number and the state in which they are registered. Unless specified, do not send originals.

Some courses require additional documentation such as a portfolio, research proposal, questionnaire, referee reports and/or verification of your employment details. You should check the course description on the online course brochure for additional documents that may be required.

Note: Charles Sturt University does not charge an application fee.

Upload your supporting documents when completing your online application.

Alternatively, you can scan and email your supporting documents to Charles Sturt University Admissions directly:

Charles Sturt University Admissions
Email: admissions@csu.edu.au
with subject line: 'Application for admission'

For courses at Charles Sturt Study Centres in Brisbane, Melbourne or Sydney:

Admissions Office
Email: csuadmissions@studygroup.com
Phone: +61 2 8263 1888

Applying via a Charles Sturt University international education agent

Charles Sturt University has formal agreements with international recruitment agents (education agents) in Australia and overseas. These representatives are trained to assist with:

- comprehensive information about Charles Sturt (campuses, study options, courses, fees, application process, etc.)
- submitting an online Application for Admission form to Charles Sturt, including supporting documentation
- visa applications to the Australian Government.

For a list of our agents please visit
→ study.csu.edu.au/international/study-options/in-your-country/agents

Applying for credit

The university does not expect students to repeat study completed to an acceptable standard at a recognised university or college, or to study subjects in which they are already competent because of work or other experience. You should indicate on your Application for Admission if you are applying for credit.

To have your application assessed for credit, you will need to provide a certified copy in English of your academic transcript, a description of the grading system and a description of all the subjects completed, taken from the institution's official handbook.

The university will advise you of your credit once the assessment has been finalised.

For more information, visit
→ study.csu.edu.au/rpl

TAFE-articulated programs

If you are applying for a TAFE-articulated program, check the course web page at study.csu.edu.au/courses for details of the approved TAFE qualifications required for entry. You may need to provide documentation from your TAFE institution to support your application.

2. Offer

If you meet the entry requirements, you will receive a formal Offer of Admission (conditional or unconditional) by email. This will provide information on the course of offer, starting date and payment of fees. Make sure you have read and understood the details of your Offer of Admission before you commence the process of accepting.

All students will be required to have an interview assessment to determine whether you are a genuine temporary entrant (GTE) to Australia. For more information, visit
→ immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500

Your international agent will complete the GTE assessment with you and submit to Charles Sturt Admissions along with your application. Alternatively, Charles Sturt University Admissions will contact you, after you accept your conditional offer, to arrange a GTE assessment. Once all requirements have been satisfied, you will be informed and can finalise your course and Overseas Student Health Cover payments.

Information on how to formally accept Charles Sturt's Offer of Admission will be provided in your Offer of Admission.

3. Accepting your offer and paying

Once both you and Charles Sturt Admissions are satisfied you have completed all of the additional requirements, you can accept your Offer of Admission by signing and dating the Acceptance of Offer letter and returning it to the Charles Sturt Admissions Office by the due date shown on your Offer of Admission. Please be sure to read all web pages referred to in your offer, including our refund policy and details about accommodation on campus.

The final step in accepting your Offer of Admission is to send payment of your required tuition fee (as outlined in your Offer of Admission or found at study.csu.edu.au/international/apply/fees-costs) and mandatory visa-length Overseas Student Health Cover. For more information visit

→ my-offer.csu.edu.au

You will also need to meet any conditions outlined in the offer before electronic Confirmation of Enrolment can be issued.

→ my-offer.csu.edu.au/conditions-of-offer

Please note that there are conditions relating to interruption of studies.

For more information about deferral of offers or study, as well as conditions relating to interruption of studies, please consult the University Admissions Policy and Academic Progress Policy

→ about.csu.edu.au/our-university/publications-policy/policy

4. Once you have accepted – the next steps

Log on to the Charles Sturt University website

→ student.csu.edu.au

To access the many Charles Sturt services available, you will need a login ID and password. To obtain your login ID and password you need to visit the website and click on the link 'Activate my Login'.

This information provides you with details on how you can 'get online' with Charles Sturt University, whether you are currently considering a university offer or you have already accepted a place and are ready to get started.

Charles Sturt University Orientation

A thorough orientation is essential for successful study at Charles Sturt. The time between accepting your offer and the start of your first session is the perfect time to access Charles Sturt's online orientation to make sure you're ready to start your study at Charles Sturt University.

If you are studying on campus in Australia, you will also have a full Orientation program the week before classes start.

This will give you the chance to start meeting academics and other students in your course, take part in social activities and find out more about your course requirements.

→ csu.edu.au/division/student-services/student-skills/orientation

Pre-departure information

International students studying on campus in Australia need to know some important information that will make your transition as smooth as possible.

→ study.csu.edu.au/international/study-options/australia/preparing

What documents to bring to Australia

Before you obtain your visa, start at Charles Sturt or find work in Australia, we recommend that you put together a file or folder containing all your relevant important documents.

It would also be helpful to obtain and include in this folder the required official English translations of these documents.

Include the following:

- valid passports and student visa (and photocopies)
- Offer of Admission and other material sent to you by Charles Sturt University
- original IELTS (Academic) test results
- certified copies of personal papers, including academic transcripts and any educational or work qualifications you have already completed
- identification papers such as a birth certificate, driver's licence from your own country, proof of citizenship, international driver's permit, marriage or change of name certificate (where relevant)
- documents relating to any prior study
- credit cards
- medical records, immunisation records and school/university records of all accompanying family members
- marriage certificate if your spouse is accompanying you
- receipts for goods (e.g. computers, cameras) you may bring with you to Australia, to assist with assessment of customs duty / sales tax.

Remember, you will need translations in English of all documentation.

Having trouble with your application?

Did you know?

You can visit one of our approved agent offices to help you with your application.

→ study.csu.edu.au/international/study-options/in-your-country/agents

How to apply

(Higher Degrees by Research)

1. Choose your course

Charles Sturt University offers a range of Higher Degrees by Research you can tailor to suit your needs and interests, including the Doctor of Philosophy (PhD) across our three faculties: Arts and Education; Business, Justice and Behavioural Sciences; and Science.

Contact the Sub-Dean of Graduate Studies directly if you know the faculty of your interest. This will give you an opportunity to discuss your research topic and gain advice to improve your chances of being accepted for candidacy.

→ research.csu.edu.au/contact-us

2. Applying

You can apply online at
→ study.csu.edu.au/apply

When you apply for a Higher Degree by Research, it is advised that you detail your proposed research project as this will be required by the faculty once your application is received. You can apply at any time.

3. Your application is assessed

Your faculty's Associate or Sub-Dean of Graduate Studies will consider your eligibility and the availability of a supervisory team for your project. If your project is deemed eligible and there is adequate supervision, the principal supervisor will complete a faculty admission recommendation form and submit it to the Research Office for university approval. If successful you will then be made an Offer of Admission.

Useful tip

Consider scanning copies of your important documents and emailing them to yourself.

This will give you access to key information from anywhere in the world, and may make it easier to arrange replacement documents if your hard copies are lost or damaged.

IELTS: For more information and exceptions for English language proficiency, visit study.csu.edu.au/international/course-entry-requirements/english-language

Singapore A Levels Certificate. Minimum score of 7 based on the calculation of three subjects – three H2 subjects where A = 5, B = 4, C = 3, D = 2, E = 1.

Malaysia STPM (3 subjects) where advanced level A = 7, A- = 6, B+ = 5, B = 4, B- = 3, C+ = 2, C = 1.

Malaysia MICSSS/UEC is calculated on 10 subjects where A1 = 8, A2 = 7, B3 = 6, B4 = 5, B5 = 4, B6 = 3, C7 = 2, C8 = 1.

Sri Lanka GCE is calculated on the best three advanced-level subjects where A = 5, B = 4, C = 3, S = 1.

India ISC is awarded by the Indian Council of School Examinations (ICSE) and is based on 60% in four academic subjects.

India AISSCE score is based on 60% in four academic subjects.

United Kingdom GCE score is based on the best four A2 level subjects A* = 6, A = 5, B = 4, C = 3, D = 2, E = 1.

A-C Applicants are assessed on additional criteria in conjunction with academic results.

N/A** Students must achieve a minimum GPA in further tertiary studies to be considered for this course. Please contact the university for further information.

** Minimum grades only, plus additional criteria.

Please check the online course brochure for your course for details.

* Minimum; applications will be assessed on a competitive basis.

TBC To be confirmed.

Other countries

Bangladesh

- Completion of at least one year of study at a recognised university with satisfactory grades
- A completed award with a total score of 24 or above in the International Baccalaureate

China

- Completion of the first year of a recognised university bachelor's degree
- Successful completion of the National Higher Education Entrance Examination (Gaokao) with a minimum score of 80 per cent of the total maximum Gaokao score for the province
- Completion of the China Senior High School Middle Year 3 Gaokao with an average of 80 per cent across the top four academic subjects
- A completed award with a total score of 24 or above in the International Baccalaureate

Ghana

- Charles Sturt accepts the Senior Secondary School Certificate / West African Senior School Certificate in conjunction with a minimum of two passes in the GCE A levels for standard entry courses (i.e. courses with a minimum ATAR of 65)

South Korea

- Completion of the first year of a recognised university bachelor's degree with satisfactory grades
- Successful completion of the South Korean College Scholastic Ability Test (CSAT) with a minimum overall grade of 294 (overall grade is calculated from the results in Korean language, mathematics and foreign language (English); results in other components are not considered)

Nepal

- Higher Secondary Education Certificate plus minimum of one year of successful study at a recognised tertiary institution
- Higher Secondary Education Certificate with a grade average of 65%
- A completed award with a minimum score of 24 or above in the International Baccalaureate

University terms

Alumni – an association for graduates, current and former staff.

Assumed knowledge – subjects we recommend you complete before starting your course.

ATAR – Australian Tertiary Admissions Rank. This figure is used by UAC/VTAC to calculate the entrance ranking for on-campus undergraduate courses.

Award – another name for a Charles Sturt University degree. Awards can be undergraduate or postgraduate, with titles such as Bachelor, Graduate Certificate, Master and Doctor. Charles Sturt awards all comply with the Australian Qualifications Framework (AQF).

Campus – the location where you will study (and often live).

Census date – the date by which you must have finalised your subject selection and payment for a particular session.

Core subjects – the subjects in a course that all students are required to complete.

Course – the degree or qualification you're studying, either at undergraduate or postgraduate level. This may also be known as a program.

Course Director – a member of the academic staff in a faculty who handles administrative matters relating to students enrolled in a course.

Elective – an optional subject selected in addition to the core subjects of the course.

Executive Dean – the member of academic staff responsible for managing a faculty.

Faculty – a department within a university devoted to a particular area of study. Charles Sturt University has three faculties:

- Arts and Education
- Business, Justice and Behavioural Sciences
- Science.

Full-time student – a student enrolled in subjects that amount to 75 per cent or more of the normal full-time study load for a session. A normal full-time study load for a student is four 8-point subjects in each of two sessions per year.

GPA – your grade point average (GPA) is calculated from the results in each subject completed within a course.

Lecture – a regular presentation given by a lecturer to a large group of students.

Major study – an area within a course that allows in-depth study in a particular field. A major usually consists of eight related subjects. You may be allowed to do more than one major in a course.

Minor study – a grouping of between four and seven subjects within a course, letting you focus on a particular field.

Online education – a way of studying that lets you complete your course online wfrom anywhere in the world.

Part-time student – a student enrolled in subjects that amount to less than 75 per cent of the normal full-time study load for a session.

Program – the degree or qualification you are studying, either at undergraduate or postgraduate level. At Charles Sturt University, this is usually referred to as a course.

Residential school – a short period of study, usually from three to five days, where online students come on campus to complete units or assessment tasks for a subject. These may be compulsory or optional.

School – a unit of the university that administers the courses in a discipline.

Session – a period of time during which classes are held. Charles Sturt University has three sessions, each lasting around 10–12 weeks.

student.csu – a secure and personalised space on our website that we use to communicate with our students.

Student Services and Amenities Fee (SSAF) – a fee we use to maintain and enhance services and amenities for students, such as counselling, advocacy, legal and financial support, health promotion, welfare, disability, childcare, social inclusion, sports and many more. We calculate this fee based on the number of subjects you're enrolled in for a session.

Subject – the individual area of knowledge you study each session, with a number of subjects making up a course. At Charles Sturt, most subjects are worth 8 points and take one session to complete.

Subject points – a value assigned to each subject to reflect its relative weighting. At Charles Sturt, a standard one-session subject is assigned 8 points.

Tutorial – a regular teaching session for a small group of students, involving discussion and participation.

UAC – Universities Admissions Centre (NSW and ACT). International students who have completed Year 12 in Australia may be able to apply for undergraduate degrees through UAC International.

Workplace learning – time spent doing hands-on learning. This may be in real workplaces in the community, in Charles Sturt's clinics and enterprises, or in laboratories or specialist facilities on campus. Workplace learning activities may be subject to visa restrictions for international students.
